REQUEST(S)

In accordance with the Town of Miami Lakes Land Development Code (the "Town's LDC"), Anibal and Ann Margaret Villar (the "Applicant") is requesting the following variance(s):

1. A variance from Subsection 13-1512(a)(1)a. to allow a pool 5.05 feet from the rear property line where the Code requires a pool to be set back a minimum of 7.5 feet from the rear property line.

Summary of Proposal and Recommendation

The Applicant is requesting a variance in order to construct a pool in the back yard with a rear setback of 5.05 feet where the Code requires a pool to be set back 7.5 feet from the rear property line. The Applicant is requesting a variance of 2.45 feet.

The shape of the lot is such that there are two rear property lines that come to a point to form the back yard. The pool will be set back 5.05 feet from one rear property line and 5.15 feet from the other rear property line.

As the Applicant states in his Letter of Intent, there have been similar pool variances that have been granted in the immediate area. The Royal Oaks Homeowner's Association has approved the plans for the pool.

Variance Criteria

Subsection 13-305(f)1 of the Town LDC allows the Planning and Zoning Board to approve non-use variance request(s) on the basis of practical difficulty on part of the Applicant by a majority vote of the members of the Planning and Zoning Board present. In order to authorize any variance on the basis of practical difficulty, the Planning and Zoning Board members at the meeting shall balance the rights of property owners in the Town as a whole against the need of the individual property owner to deviate from the requirements of the Land Development Code based on an evaluation of the factors below. All of the factors should be considered and given their due weight; however, no single factor is dispositive.

	PRACTICAL DIFFICULTY VARIANCE FACTORS
	FACTOR
a.	The Town has received written support of the specifically identified variance requests from adjoining property owners;
	Analysis: The Town has not received any written support regarding this variance request. This criterion is not met.
b.	The Variance would be compatible with development patterns in the Town;
	Analysis: The proposed pool would be compatible with development patterns in the Town. The Code allows pools in rear yards. The variance requested is the minimum needed to fit the pool in the oddly shaped back yard. <u>This criterion is met.</u>
C.	The essential character of the neighborhood <i>would</i> be preserved;
	Analysis: The location of the proposed pool would not take away from the character of the neighborhood. The Code allows pools in rear yards. The variance requested is the minimum needed to fit the pool in the oddly shaped back yard, and the pool will not be visible to neighbors as there is an existing six foot high CBS wall at the northwestern property line (the setback from which the variance is requested). The other nearby property line, to the north, currently includes a chain link fence separating it from a vacant lot. Staff is recommending a condition that an opaque wall or fence must be installed to hide any view of the pool from that adjacent property. Additionally, there is no pool deck between the portion of the pool for which the variance is being sought and the property line. A deck would have a required setback of five feet, and thus actual improvements will be further from the property line than what the required deck setback would be. This criterion is met if <u>conditioned as recommended by Staff.</u>
d.	The Variance can be approved without causing substantial detriment to adjoining properties;
	Analysis: As stated above, the Applicant is requesting the minimum variance needed, 2.45 feet, in order for the pool to fit in the oddly shaped back yard. There remains 5.05 feet from the pool to the rear property line. The pool will not be visible

to neighbors as there is an existing six foot high CBS wall at the northwestern property line (the setback from which the variance is requested). The other nearby property line, to the north, currently includes a chain link fence separating it from a vacant lot. Staff is recommending a condition that an opaque wall or fence must be installed to hide any view of the pool from that adjacent property. Additionally, there is no pool deck between the portion of the pool for which the variance is being sought and the property line. A deck would have a required setback of five feet, and thus actual improvements will be further from the property line than what the required deck setback would be. <u>This criterion is met if conditioned as</u> <u>recommended by Staff.</u>

e. The Variance will do substantial justice to the property owner as well as to other property owners justifying a relaxation of this Land Development Code to provide substantial relief;

Analysis: In the letter of intent, the Applicant states that there have been similar pool variances that have been granted in the immediate area. Also, the Applicant is requesting the minimum variance needed, 2.45 feet, in order for the pool to fit in the oddly shaped back yard. There remains 5.05 feet from the pool to the rear property line. The pool will not be visible to neighbors as there is an existing six foot high CBS wall at the northwestern property line (the setback from which the variance is requested). The other nearby property line, to the north, currently includes a chain link fence separating it from a vacant lot. Staff is recommending a condition that an opaque wall or fence must be installed to hide any view of the pool from that adjacent property. This criterion is met if conditioned as recommended by Staff.

f. The plight of the applicant is due to unique circumstances of the property and/or applicant which would render conformity with the strict requirements of the Land Development Code unnecessarily burdensome; and

Analysis: The unique circumstance that exists on this property is that it has an oddly shaped back yard. Nonetheless, given the large size of the lot and the large pool that is proposed, conformance with the Code would not be unnecessarily burdensome. This criterion is not met.

g. The special conditions and circumstances which exist are the result of actions beyond the control of the applicant.

Analysis: The special condition that exists on the property, the oddly shaped back yard, is a result of actions beyond the control of the Applicant. However, as noted above, because these unique circumstances do not render conformity with the Code unnecessarily burdensome, this criterion is not met.

ANALYSIS

The Applicant is requesting a variance in order to construct a pool in the back yard with a rear setback of 5.05 feet where the Code requires a pool to be set back 7.5 feet from the rear property line.

The shape of the lot is such that there are two rear property lines that come to a point to form the back yard. The pool will be set back 5.05 feet from one rear property line and 5.15 feet from the other rear property line.

The variance requested is the minimum needed, 2.45 feet, to fit the pool in the oddly shaped back yard. There remains 5.05 feet from the pool to the rear property line. Additionally, there is no pool deck between the portion of the pool for which the variance is being sought and the property line. A deck would have a required setback of five feet, and thus actual improvements will be further from the property line than what the required deck setback would be.

The proposed pool would be compatible with development patterns in the Town and in character with the neighborhood. As the Applicant states in his Letter of Intent, there have been similar pool variances that have been granted in the immediate area.

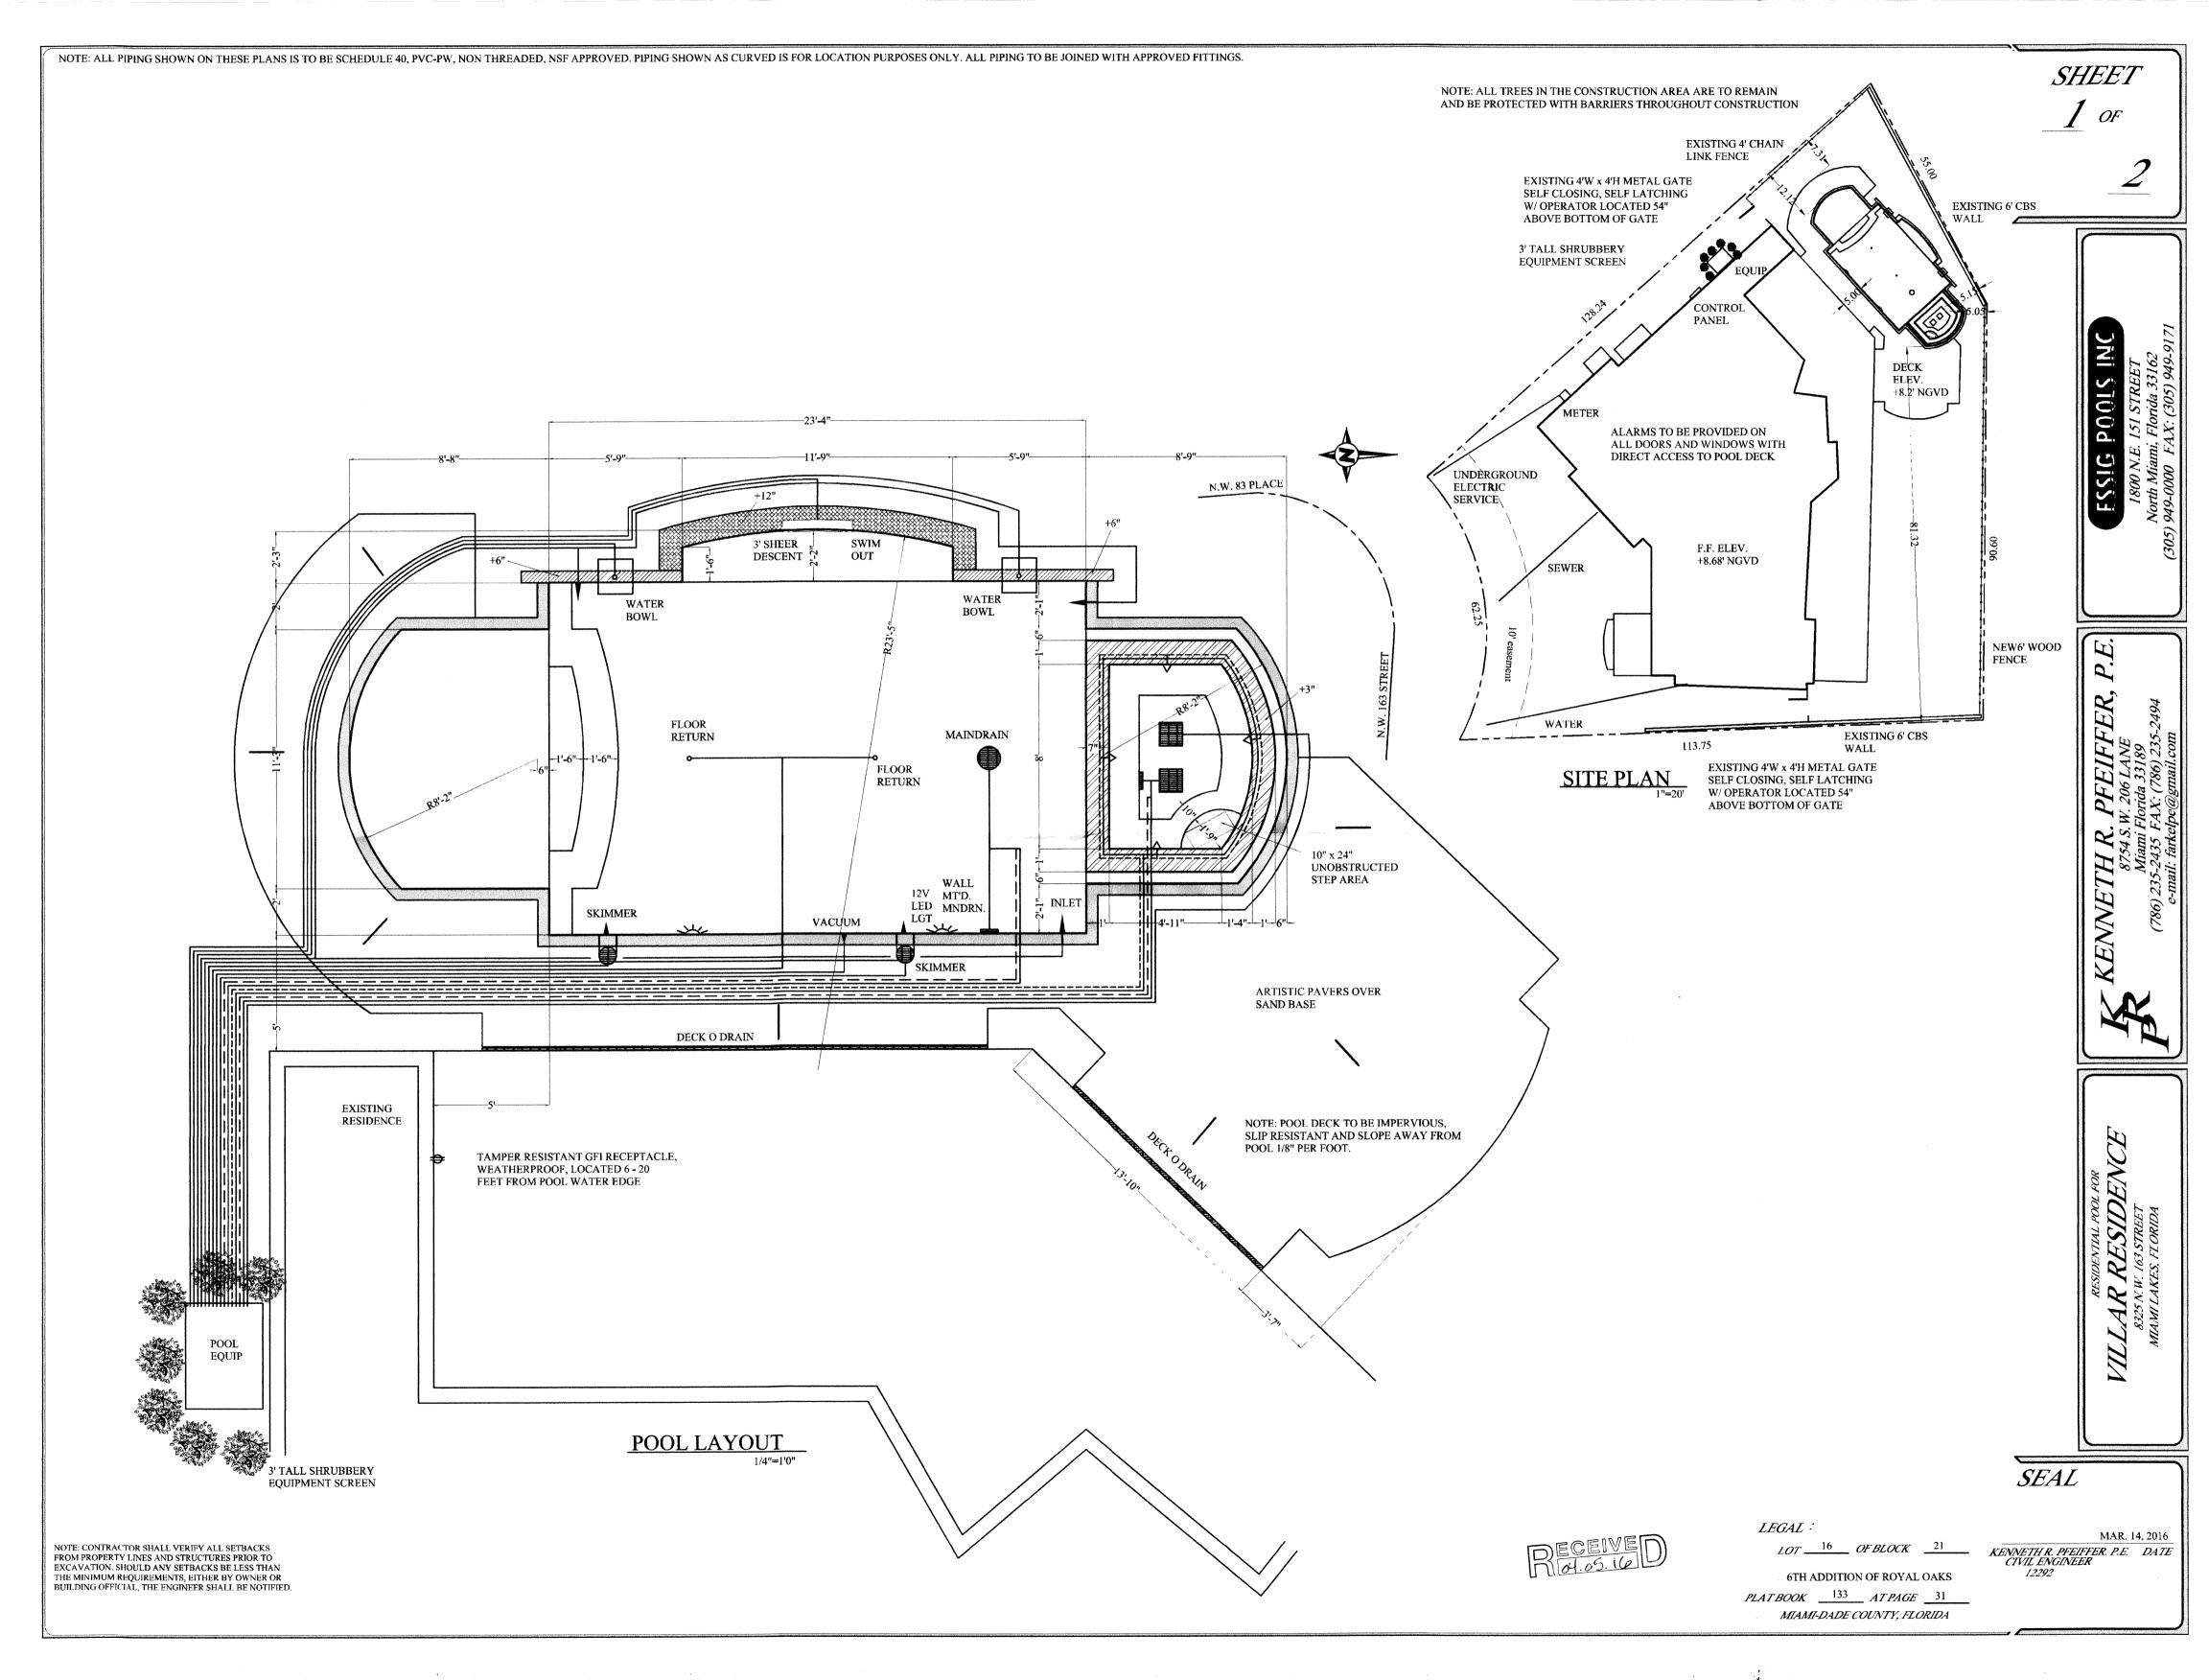

Staff's analysis shows that this request meets four (4) of the seven (7) practical difficulty criteria for a variance, if the request is conditioned as recommended by Staff.

Therefore, based on the above analysis and other factors contained in this report, Staff recommends:

• **Request #1:** Approval with conditions.

CONDITION(S)

- 1. All work approved herein shall be in substantial compliance with the plans shown in Exhibit 1.
- 2. The Applicant shall obtain building permits for all requests approved herein, within one (1) year of the date of this approval. If said building permits are not obtained or an extension granted within the prescribed time limit, this approval shall become null and void.
- 3. Prior to approval of a final zoning inspection for the pool, the property owner shall have installed, and must perpetually maintain, an opaque fence or wall of at least six feet high along the northern property line.
- 4. All construction shall comply with the restrictions in the Town's noise ordinance.

Dear Homeowner:

The Homeowner's Association Architectural Review Board hereby Approves / Disapproves the proposed NEW POOL (AS PER SAMPLES ATTACHED) for the ongoing construction at Lot 16, Block 21, in Royal Oaks, as per your request submitted for approval on April 21, 2016. All constructions and improvements at this subdivision MUST BE approved and authorized by the Town of Miami Lakes Building and Zoning Department and it is the responsibility of the owner to secure it.

The above approval only pertains to the Covenants and Restrictions as recorded for the subdivision of Royal Oaks.

The A.R.B. meets on or about the 15th and the 30th of each month to review any new construction plans and / or exterior modifications and they have 30 days after receiving plans by a member of the A.R.B. to approve or disapprove the submitted plans.

	LOOATION.	Miami Lakes, Florida 33014
Date:	June 21, 2016	

REQUEST(S)

In accordance with the Town of Miami Lakes Land Development Code (the "Town's LDC"), Miami Lakes Center, LLC (the "Applicant") is requesting the following variance(s):

1. A variance from Subsection 13-1904(3)c.4. to allow three (3) standing signs on a site where the Code limits this site to no more than two standing signs.

Summary of Proposal and Recommendation

The Applicant is requesting a variance in order to allow a third standing sign on the site. By the Code, this site is allowed two standing signs since it has more than 200 linear feet of road frontage. Since the site is bounded by roads on all sides, one additional sign is being requested in order to advertise the tenants within the building at each entrance.

Staff Recommendation

Request #1: Staff recommends approval with conditions.

Background

Zoning District of Property: IU-C – Industrial Use-Conditional

Future Land Use Designation: Industrial and Office

A. <u>Open Building Permit(s) / Open Code Compliance Violation(s) / Zoning History</u>:

There are no open building permits on file associated with this property.

There are no open code violations associated with this property.

Variance Criteria

Subsection 13-305(f)1 of the Town LDC allows the Planning and Zoning Board to approve non-use variance request(s) on the basis of practical difficulty on part of the Applicant by a majority vote of the members of the Planning and Zoning Board present. In order to authorize any variance on the basis of practical difficulty, the Planning and Zoning Board members at the meeting shall balance the rights of property owners in the Town as a whole against the need of the individual property owner to deviate from the requirements of the Land Development Code based on an evaluation of the factors below. All of the factors should be considered and given their due weight; however, no single factor is dispositive.

	FACTOR
а.	The Town has received written support of the specifically identified variance requests from adjoining property owners;
	Analysis: The Town has not received any written support regarding this request. <u>This criterion is not met.</u>
b.	The Variance would be compatible with development patterns in the Town;
	Analysis: This request would be compatible with development patterns in the Town. This is a very large site with more than 500 linear feet of road frontage on each side and all signs will be spaced more than 100 feet apart. <u>This criterion is met.</u>
C.	The essential character of the neighborhood <i>would</i> be preserved;
	Analysis: As stated above, this request would be compatible with development patterns in the Town and the neighborhood. This is a very large site with more than 500 linear feet of road frontage on each side and all signs will be spaced more than 100 feet apart. This criterion is met.
d.	The Variance can be approved without causing substantial detriment to adjoining properties;
	Analysis: The original sign is located in the northeast corner of the site at NW 165 th Terrace and NW 58 th Avenue. There is a sign proposed at the south entrance on NW 163 rd Street set back 10+ feet from the property line, and a sign proposed at the west entrance on NW 59 th Avenue set back 10+ feet from the property line.
	This request would not cause any detriment to adjoining properties as this is a very large site with more than 500 linear feet of road frontage on each side and all signs will be spaced more than 100 feet apart. Having a sign along each street frontage, given the size of each frontage, is a normal and expected feature. Combined with the character of the area, the proposal will not cause substantial detriment to adjoining properties. This criterion is met.
e.	The Variance will do substantial justice to the property owner as well as to other property owners justifying a relaxation of this Land Development Code to provide substantial relief;
	Analysis: The subject property is the site of the old Dade Medical College. As

	stated by the Applicant, the additional signage is proposed at the south and west elevations to ensure that each entrance is properly and clearly marked with a monument sign noting the tenants relevant to each entrance. Having a sign along each street frontage, given the size of each frontage, is a normal and expected feature. Combined with the character of the area, granting the proposal will do substantial justice to both the owner of the subject property and and to other property owners. <u>This criterion is met.</u>
f.	The plight of the applicant is due to unique circumstances of the property and/or applicant which would render conformity with the strict requirements of the Land Development Code unnecessarily burdensome; and
	Analysis: The unique circumstance of the property is that it is bounded by roads on all four sides; NW 165 th Terrace to the north, NW 58 th Avenue to the east, NW 163 rd Street to the south and NW 59 th Avenue to the west. The Applicant is proposing the additional signage to clearly mark each entrance with the tenants at each location/entrance. This criterion is met.
g.	The special conditions and circumstances which exist are the result of actions beyond the control of the applicant.
	Analysis: It is unusual for a piece of property to front a road on all four sides. <u>This</u> criterion is met.

ANALYSIS

The Applicant is requesting a variance in order to allow a third standing sign on the site. By the Code, this site is allowed two standing signs since it has more than 200 linear feet of road frontage. Since the site is bounded by roads on all sides, one additional sign is being requested in order to advertise the tenants within the building.

This request would be compatible with development patterns in the Town and the neighborhood. This is a very large site with more than 500 linear feet of road frontage on each side and all signs will be spaced more than 100 feet apart. Besides the number, the proposed signs comply with the other requirements of the LDC.

The original sign is located in the northeast corner of the site at NW 165th Terrace and NW 58th Avenue. There is a sign proposed at the south entrance on NW 163rd Street set back 10+ feet from the property line, and a sign proposed at the west entrance on NW 59th Avenue set back 10+ feet from the property line.

The subject property is the site of the old Dade Medical College. As stated by the Applicant, the additional signage is proposed at the south and west elevations to ensure that each entrance is properly and clearly marked with a monument sign noting the tenants relevant to each entrance.

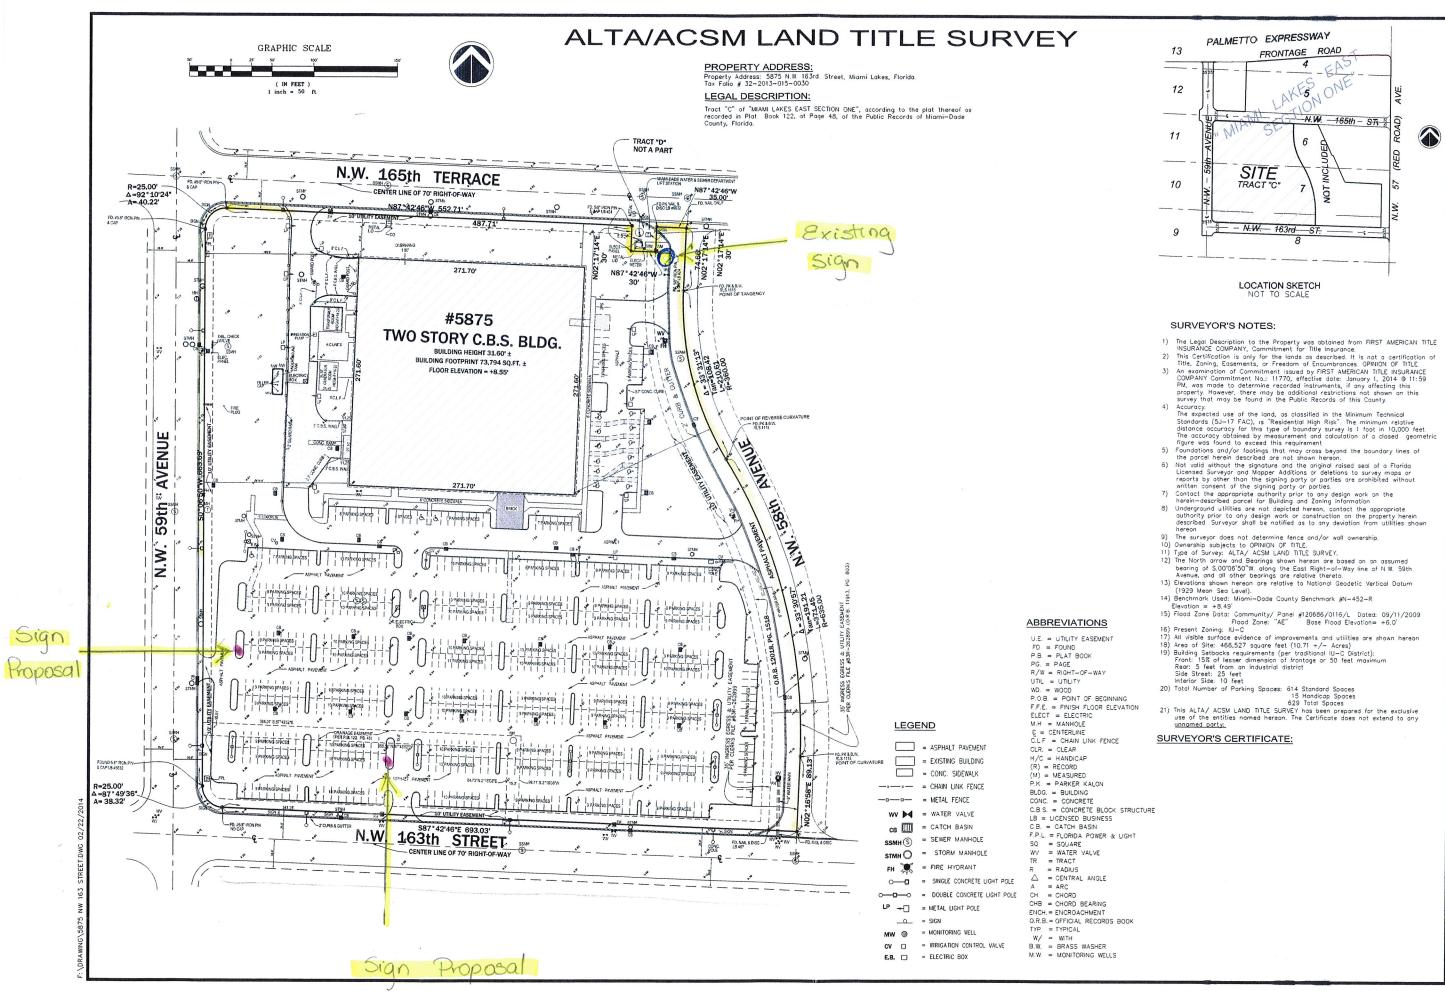

Having a sign along each street frontage, given the size of each frontage, is a normal and expected feature. Combined with the character of the area, the proposal will be consistent and compatible with the area.

Staff's analysis shows that this request meets six (6) of the seven (7) practical difficulty criteria for a variance.

Therefore, based on the above analysis and other factors contained in this report, Staff recommends approval of this request, with conditions.

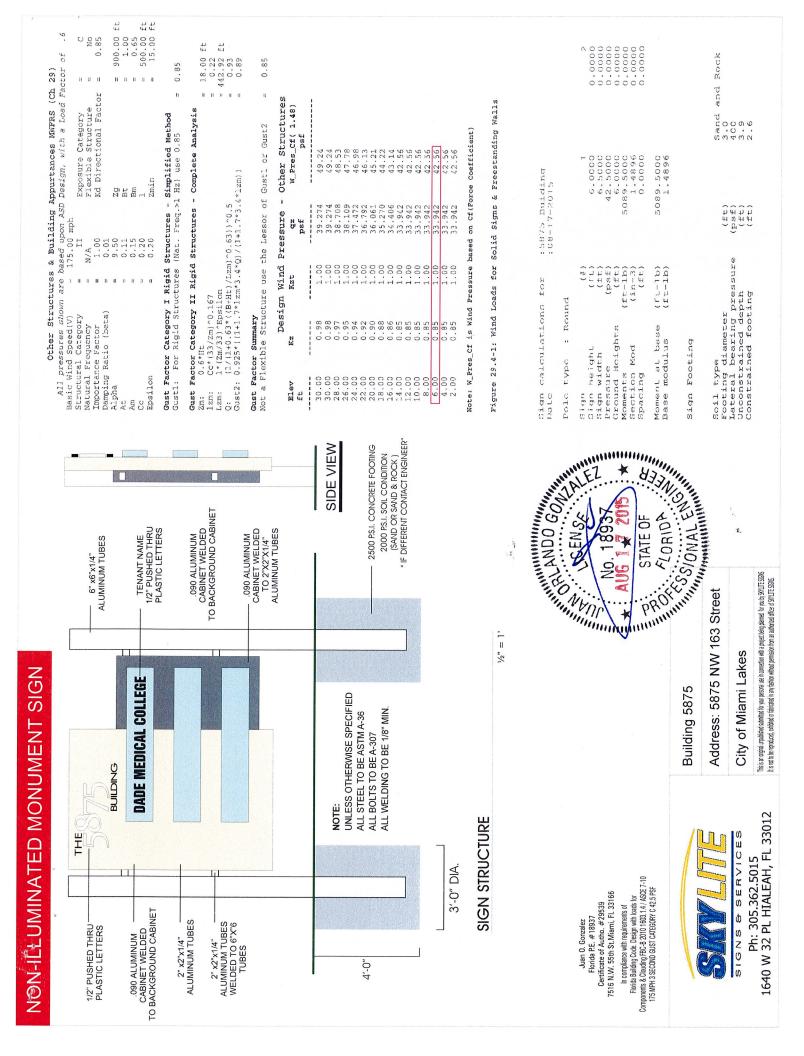

CONDITIONS

- 1. The location of the signs approved herein, and the specifications thereof, shall be in substantial compliance with the plans in Exhibit 1.
- The Applicant shall obtain building permits for all requests approved herein, within one (1) year of the date of this approval. If said building permits are not obtained or an extension granted within the prescribed time limit, this approval shall become null and void.

To:

Planning & Zoning Board Town of Miami Lakes Building Department 6601 Main Street, 1st Floor Miami Lakes, FL 33014

To whom it may concern:

I, Ali Ahmed, owner of the building located at 5875 Northwest 163rd Street Miami Lakes, Florida 33014, am requesting a variance for two additional monument signs on the property: one located on the South Elevation and the other on the West Elevation. This request is to ensure that each entrance to the building is properly and clearly marked with a monument sign annotating the tenants relevant to each property entrance. Currently, the property has one monument sign at the northeast entrance, leaving the others unmarked. I anticipate several new tenants moving into the property in the immediate future, and with the large increase in personnel and usage of the building, and the intent is to provide these tenants, as well as any related visitors to the building, a clean and clear welcome and presentation immediately at each point of entry to the property.

If you have any questions or concerns, please do not hesitate in contacting me.

Respectfully, Ali Ahmed Owner

REQUEST(S)

In accordance with the Town of Miami Lakes Land Development Code (the "LDC"), Yenisse Mink (the "Applicant") is requesting the following variance(s):

- 1. A variance from Section 13-1506(2)a.1. to allow an open covered terrace 14.83 feet from the rear property line where the Code requires an open covered terrace to be set back a minimum of 18 feet from the rear property line.
- 2. A variance from Section 13-1507(2) to allow a 7 foot wide walkway on the east side of the property where the Code allows a walkway to be a maximum of 3 feet wide in the side yard.
- 3. A variance from Section 13-1507(2) to allow a 12 foot wide walkway in the southeast side of the property where the Code allows a walkway to be a maximum of 3 feet wide in the side yard.
- 4. A variance from Section 13-1507(2) to allow a walkway to be setback 1 foot in the southeast side of the property where the Code requires a walkway to be set back a minimum of 2 feet from the side property line.

- 5. A variance from Section 13-1507(3) to allow a deck to be setback 1 foot in the southeast side of the property where the Code requires a deck to be set back a minimum of 5 feet from the side property line.
- 6. A variance from Section 13-1507(2) to allow a 10.5 foot wide walkway on the west side of the property where the Code allows a walkway to be a maximum of 3 feet wide in the side yard.
- 7. A variance to from Section 13-1508(3) to allow a driveway 1.25 feet from the west side property line where the Code requires a minimum setback of 5 feet for a driveway from the side property line.
- 8. A variance to from Section 13-1508(6) to allow 76 percent impervious surface in the front yard where the Code allows a maximum of 60 percent impervious surface in the front yard.
- 9. A variance to from Section 13-1508(6) to allow 70 percent impervious surface in the west side yard where the Code allows a maximum of 60 percent impervious surface in the side yard.

Summary of Proposal and Recommendation

Request #1 - The Applicant is requesting a variance in order to construct an open covered terrace on the rear of the residence with a setback of 14.83 feet where the Code requires a setback of 18 feet for an open covered terrace.

Requests #2 through #9 - The Applicant is also requesting to legalize the concrete in the front, sides and rear yards that was poured without permits. Staff's research shows that the property was purchased by the current owner in 2001. A permit was obtained in 2002 for a circular driveway as seen in Exhibit 1. According to the surveys, sometime between 2002 and 2007 the remainder of the concrete was added to the property.

Royal Gardens Estates does not have a homeowner's association.

To date, the Town has received two written oppositions in response to this request.

Staff Recommendation

<u>Request #1:</u> Staff recommends approval with conditions.

Requests #2 through #9: Staff recommends denial.

Variance Criteria

Subsection 13-305(f)1 of the Town LDC allows the Planning and Zoning Board to approve non-use variance request(s) on the basis of practical difficulty on part of the Applicant by a majority vote of the members of the Planning and Zoning Board present. In order to authorize any variance on the basis of practical difficulty, the Planning and Zoning Board members at the meeting shall balance the rights of property owners in the Town as a whole against the need of the individual property owner to deviate from the requirements of the Land Development Code based on an evaluation of the factors below. All of the factors should be considered and given their due weight; however, no single factor is dispositive.

	PRACTICAL DIFFICULTY VARIANCE FACTORS
	FACTOR
a.	The Town has received written support of the specifically identified variance requests from adjoining property owners;
	Analysis: The Town has received two written oppositions in response to this request. This criterion is not met.
b.	The Variance would be compatible with development patterns in the Town;
	Analysis: Request #1 - The proposed open covered terrace is typical of improvements throughout the Town, and the relatively small variance requested of about three feet, two inches will be unobtrusive. The requested variance is deemed to be compatible with development patterns in the Town.
	Requests #2 through #9 – The requested variances are not compatible with development patterns in the Town. It is important to the Town that property owners respect the Code and maintain the appropriate amount of green space in their required yards for drainage and aesthetics.
	This criterion is met with regard to Request #1; this criteria is not net with regard to Requests #2 through #9.
C.	The essential character of the neighborhood <i>would</i> be preserved;
	Analysis: Request #1 - The proposed open covered terrace is typical of improvements in backyards, and will be unobtrusive. The requested variance is deemed to be compatible with development patterns in the neighborhood.
	Requests #2 through #9 – The requested variances are not compatible with development patterns in the neighborhood. It is important to the Town that property owners respect the Code and maintain the appropriate amount of green space in their required yards for drainage and aesthetics.
	This criterion is met with regard to Request #1; this criteria is not net with regard to Requests #2 through #9.
d.	The Variance can be approved without causing substantial detriment to adjoining properties;

	Analysis: Request #1 – The requested variance for the open covered terrace is for about three feet, two inches (18 foot setback required versus about 14 feet, 10 inches proposed), which will not be seen from the street and will not be particularly noticeable from neighboring properties.
	Requests #2 through #9 would and do cause substantial detriment to adjoining properties. The aesthetics of the lot have been altered substantially with the addition of the concrete. And this amount of concrete affects drainage on adjoining properties and the stormwater system.
	This criterion is met with regard to Request #1; this criteria is not net with regard to Requests #2 through #9.
e.	The Variance will do substantial justice to the property owner as well as to other property owners justifying a relaxation of this Land Development Code to provide substantial relief;
	Analysis: Request #1 – Because the requested variance will not cause a noticeable difference from normal improvements in properties in the area, the requested variance would do substantial justice to both the owner of the subject site and other property owners.
	Requests #2 through #9 would and do cause substantial detriment to adjoining properties. The aesthetics of the lot have been altered substantially with the addition of the concrete. And this amount of concrete affects drainage on adjoining properties and the stormwater system. These requested variances do not justify a relaxation of the Code.
	This criterion is met with regard to Request #1; this criteria is not net with regard to Requests #2 through #9.
f.	The plight of the applicant is due to unique circumstances of the property and/or applicant which would render conformity with the strict requirements of the Land Development Code unnecessarily burdensome; and
	Analysis: Requests #1 through 9 - There are no unique circumstances with the property and/or the Applicant that would render conformity with the Code unnecessarily burdensome. These criteria are not met.
g.	The special conditions and circumstances which exist are the result of actions beyond the control of the applicant.
	Analysis: There are no special conditions or circumstances that exist that are the result of actions beyond the control of the Applicant. <u>These criteria are not met.</u>

ANALYSIS

Request #1 –

The Applicant is requesting a variance in order to construct an open covered terrace on the rear of the residence with a setback of 14.83 feet where the Code requires a setback of 18 feet for an open covered terrace.

The proposed open covered terrace is typical of improvements throughout the Town and the neighborhood, and will be relatively unobtrusive and neither visible from the street nor noticeably different than typical improvements throughout the area. Since not seen from the road, the requested variance would not cause substantial detriment to adjoining properties and would justify a relaxation of the Code.

Requests #2 through #9 -

The Applicant is also requesting to legalize the concrete in the front, sides and rear yards that was poured without permits. Staff's research shows that the property was purchased by the current owner in 2001. A permit was obtained in 2002 for a circular driveway as shown in Exhibit 2. According to the surveys, sometime between 2002 and 2007 the remainder of the concrete was added to the property.

These requested variances are not compatible with development patterns in the Town or the neighborhood. The aesthetics of the lot have been altered substantially with the addition of the concrete and loss of green space. It is important that property owners respect the Code and maintain the appropriate amount of green space in their required yards for drainage and aesthetics.

To date, the Town has received two written oppositions in response to this request.

Staff's analysis shows that Request #1 meets four (4) of the seven (7) practical difficulty criteria if conditioned as recommended by Staff, while Requests #2 through #9 meet zero (0) of the seven (7) criteria.

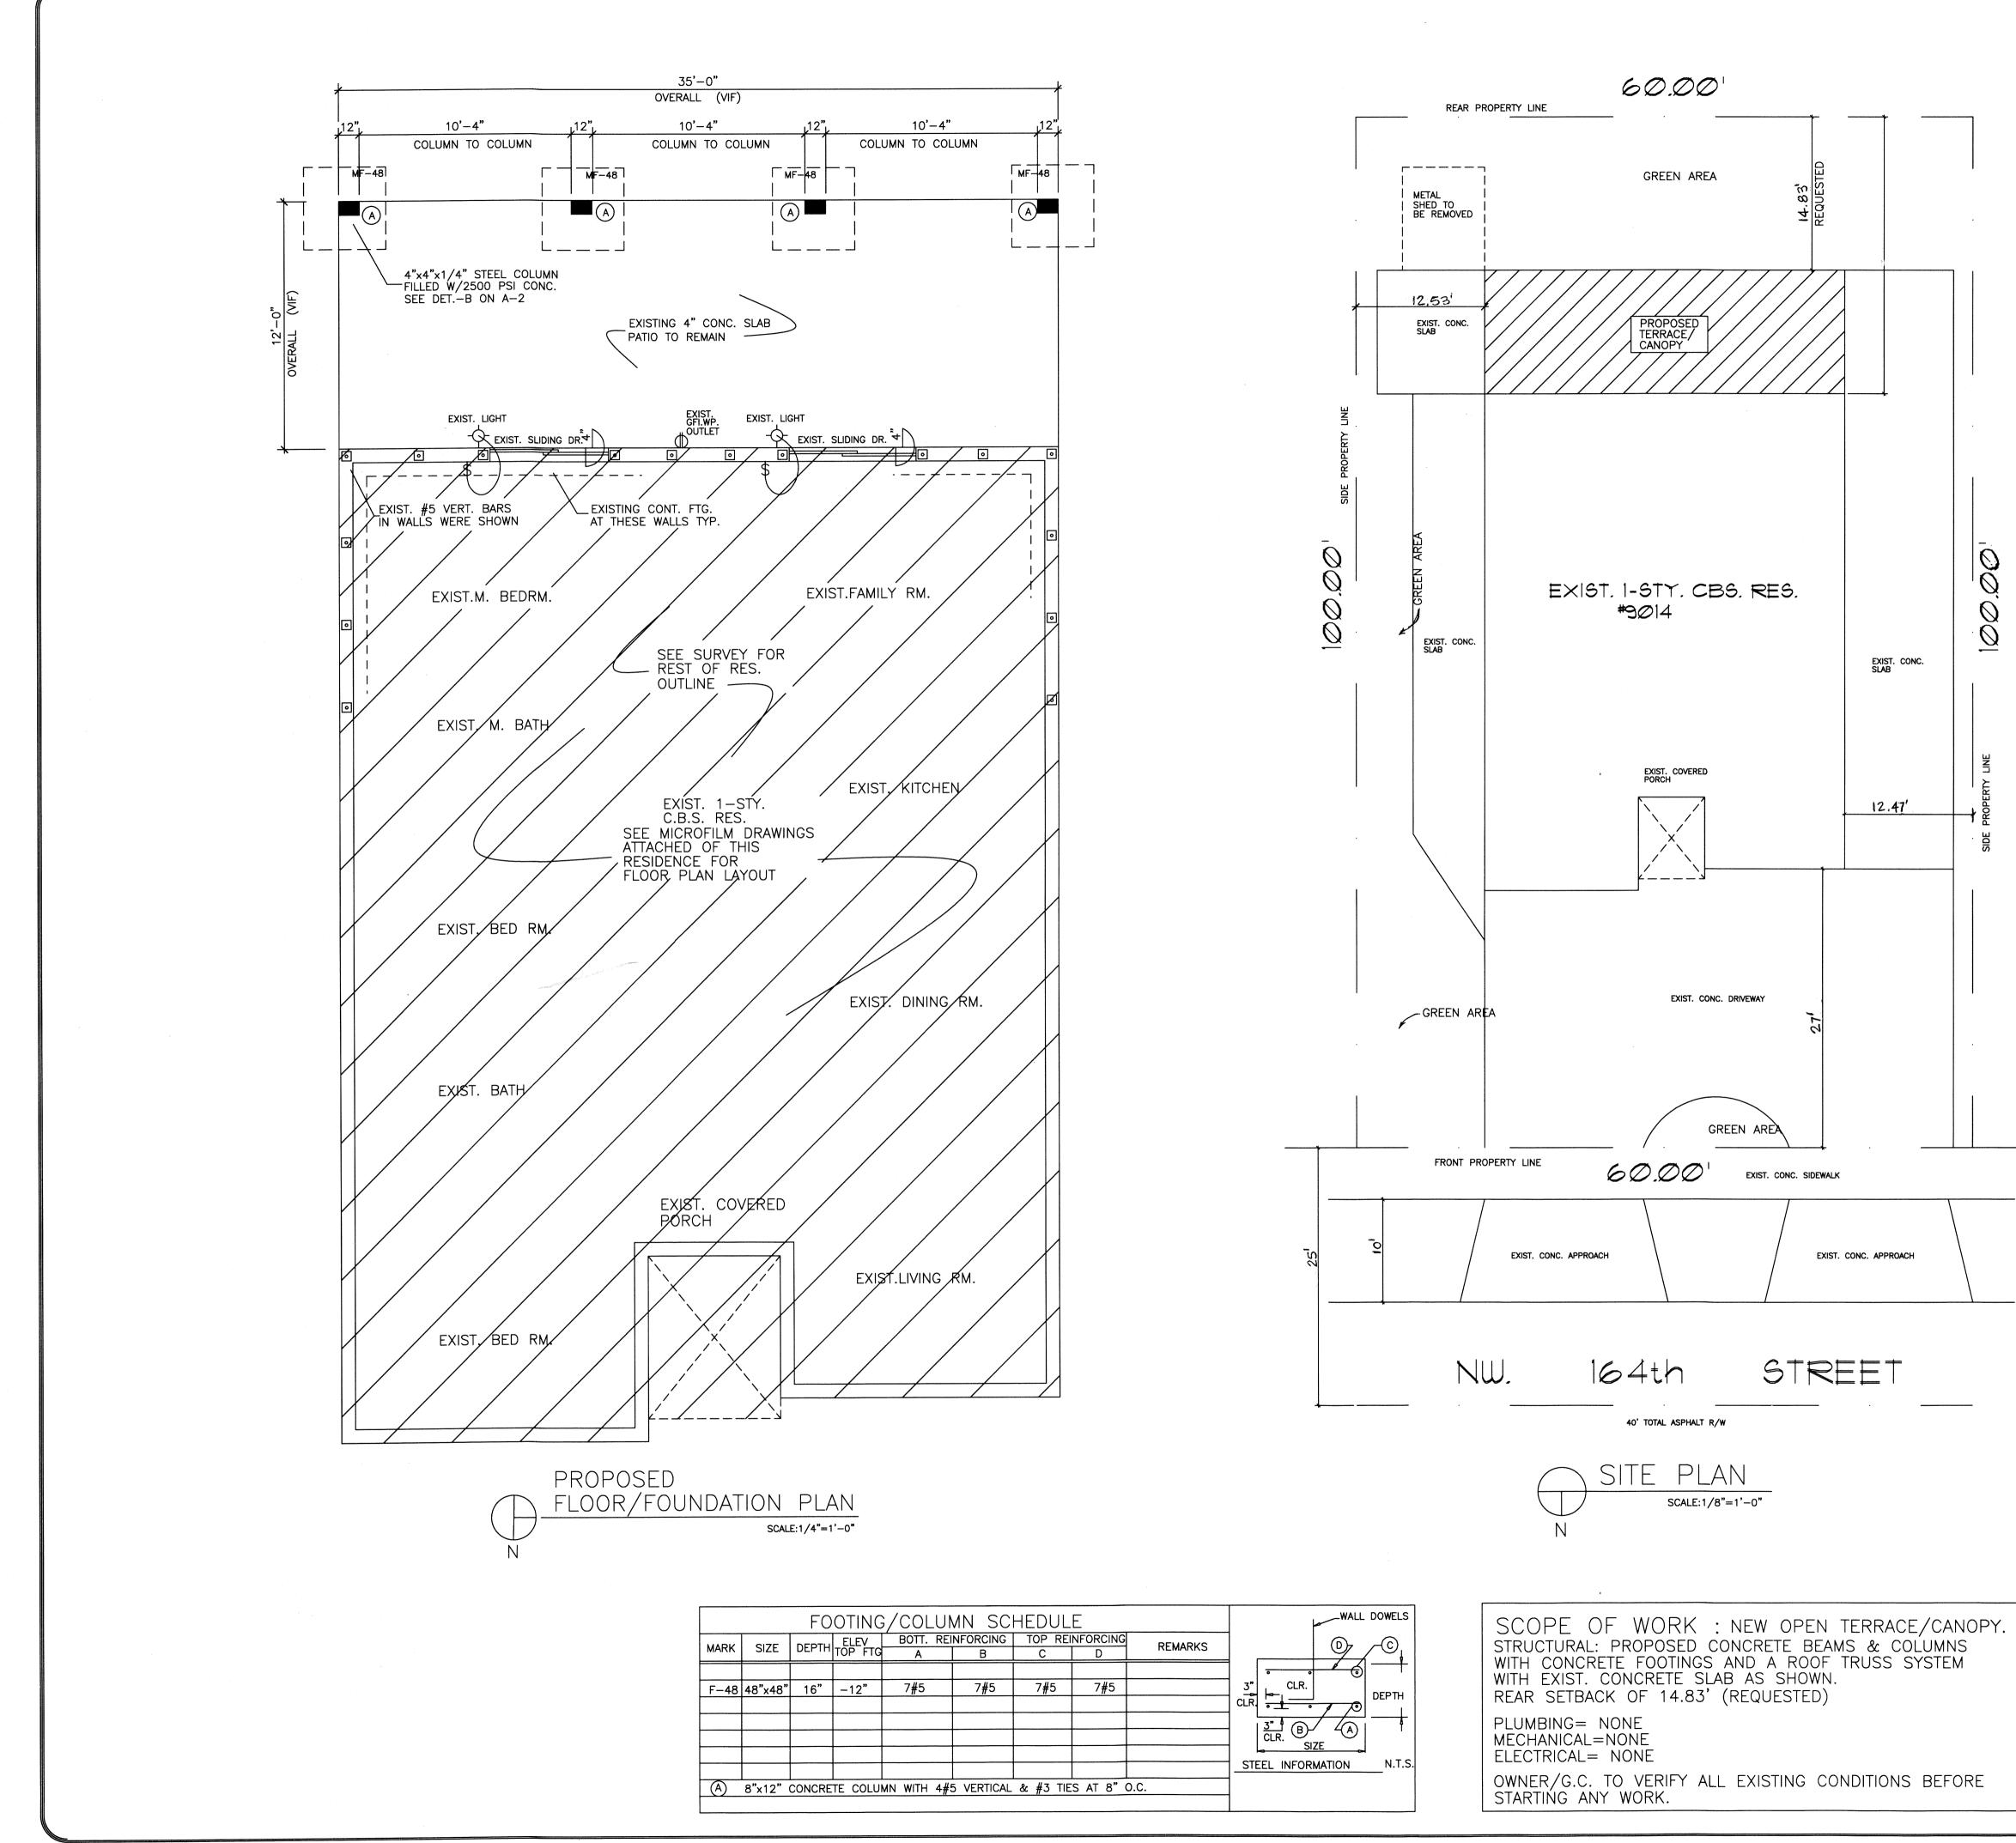

Therefore, based on the above analysis and other factors contained in this report, Staff recommends:

- <u>Request #1:</u> Approval with conditions that the lot be returned to its former configuration as shown in Exhibit 1and that the terrace in the rear yard may remain;
- Requests #2 through #9: Denial.

CONDITION(S)

1. The open covered terrace approved herein shall be built in substantial compliance with the plans in Exhibit 1.

- 2. Within the required front yard, paving and other impervious areas (including the driveway) shall be modified as necessary to either: 1) comply with the approved plans for permit number B2002-0561 (included as Exhibit 2); or 2) comply with current LDC requirements (including the driveway approaches).
- 3. All paving/impervious areas in the required rear yard and in the required side yards shall be modified to comply with LDC requirements.
- No permit for construction of the open covered terrace, as approved herein, shall be issued unless and until any permits required to comply with Conditions #2 and #3 herein are issued simultaneously.
- 5. No final zoning inspection of the covered terrace as approved herein shall be approved unless and until all work required under Conditions #2 and #3 has been completed and inspections for such work have been approved.
- 6. The Applicant shall obtain building permits for all requests approved herein, within one (1) year of the date of this approval. If said building permits are not obtained or an extension granted within the prescribed time limit, this approval shall become null and void.
- 7. All construction shall comply with the restrictions in the Town's noise ordinance.

I am opposed to all variances the applicant has applied for, 1 - 9. I live in the Town of Miami Lakes for the very reasons of the strict buildings codes. They are put in place for reasons that protect the next door neighbor's yard from flooding and water drainage issues. The green areas also add appeal to what Miami Lakes is all about. Such as: greenery, beauty, and a welcoming appearance. Hialeah/Hialeah Gardens are full of concrete both in the front and back yards and no one respects the codes; therefore, there are a lot of drainage issues and a lack of aesthetic appeal because of concrete everywhere in place of the green areas that assist with drainage. In addition to this, It is in my opinion that if the variances pass this will set a precedence for others to follow. Everyone must be held to the same code. We have them in place for reasons. Let's protect and preserve Miami Lakes and its greenery.

Respectfully,

Abe Iglesias abi@miamidade.gov

I am a resident at Royal Oak Garden Estate and I do oppose any changes that Yenissse Mink is proposing., period !!!

When he/she purchased that house, he/she accepted the way it was, either sale the house, get out, but I opposed any changes.

All those changes proposed by Yenisse is to accommodate her/his needs or desire, like I say; if the current laws does not fit her/needs, hi/she has the right to move on to where ever his/her way or changes are allow, but keep Miami Lakes the way it is, I do not pay \$ 4,500 dollars in taxes to see Miami Lakes changing to people's way. It's like when you have an association in your community, you either obey, comply with it's law, or just move on and I am not willing to make any changes to fit her desires or needs.

Than you, with regards, Mr. Gonzalez..

Planning and Zoning Board Town of Miami Lakes May 10, 2016

To whom it may concern:,

I Yenisse Mink would like to request a permit for an open terrace 12' deep ,where the rear setback of 14'-10" would be allowed. I cannot just construct a 6' deep terrace because whenever it rains and it does often, it rains sideways with the wind. If we are sitting out in the back and it starts raining with winds we will all get wet. And have to go inside the house. A 12' deep terrace will be more acceptable. So I come before you now asking you to please grant this request.

Please do not hesitate to call me if you need further clarification on this matter.

Thank you all in advance,

Yeuisse Weilk

Sincerely.

Yenisse Mink
