## Chapter 35 – STREETS, SIDEWALKS AND OTHER PUBLIC SPACES

### ARTICLE I. – IN GENERAL

\* \* \*

#### Sec. 35-3 SIDEWALKS.

- (a) Intent. It is the stated intent of the Town, as part of its broader mobility plan, to provide for sidewalk interconnectivity throughout the Town. This Section seeks to achieve this intent by establishing provisions that ensure sidewalk infrastructure, where missing, inadequate or in need of repair, is therefore planned and constructed.
- (b) Sidewalk plans shown. All plans submitted to the Town in connection with any development permit application, including a building permit or development order pursuant to Chapter 13, Article 3, of the Land Development Code, upon any parcel of land in the town abutting a public right-of-way, shall show the location of any existing sidewalks.
- ~~(c) All permits for construction, regardless of applicability or exemptions as provided below, shall provide for repair of existing sidewalks adjacent to the subject property. No final certificate of completion or occupancy shall be issued until such repair work is completed with inspection approvals.~~
- (d) Applicability. All new construction on unimproved land and any renovation or remodeling of existing building and facilities shall provide sidewalks along all street frontages, as part of that development plan except as may be otherwise provided for or exempted by these provisions.
- (e) Exemptions. The following projects are exempt from the Sidewalk Mitigation program requirements, but shall continue to be subject to the provisions of Section 202, Florida Building Code, relating to existing buildings and facilities:
  - 1. Residential renovations/additions under \$30,000;
  - 2. Single family residential roof repairs;
- (f) Permitting. No building permit shall be issued for the construction of improvements for the projects required to provide sidewalk interconnectivity as provided above, unless the proposed plans include the location of sidewalks, and said sidewalks are to be constructed or repaired as needed by the applicant in accordance with the requirements imposed by the town, and no certificate of completion or occupancy shall be granted unless such sidewalks are completed in accordance with the proposed plans.
- (g) Sidewalk Mitigation Program. The Town Council of the hereby creates the Sidewalk Mitigation Program. The program is established to provide a compliance alternative for those properties that may otherwise be unable to conform to these provisions. Eligible properties may contribute to the program that amount that would have otherwise been spent providing the required sidewalk facility had they built it themselves. Any allocation received by the fund

shall be applied towards the town's efforts to complete an interconnected sidewalk system within the town.

- (1) The Administrative Official shall grant eligibility into the Sidewalk Mitigation Program by a showing of the property owner that the construction of sidewalks on the subject property is:

  - a. Impossible due to the existence of permanent obstructions;
  - b. Would create an urgent safety hazard;
  - c. Would create a severe drainage obstruction;
  - d. Is the result of a single tenant in a mixed use commercial property that occupies less than 50% of the leasable commercial space, and it is so determined that requiring that single tenant improvement would be an unreasonable application of the law;
  - e. At the Town's request.
- (2) Properties eligible to participate in the program shall be required to pay Town's prevailing contractual cost per square yard plus a ten percent (10%) administrative overhead rate of sidewalk area required to be constructed, replaced or repaired. For participants in a multitenant commercial building, payment shall be prorated based on the percentage of leasable space occupied by the applicant within the building(s).
- (3) Any property owner aggrieved by a decision of the Administrative Official either allowing or disallowing the eligibility into the Sidewalk Mitigation program, shall have the right, upon payment of applicable fee, to file a written appeal to the Town Manager within ten days of the date of written notification of said decision. Any appeal of the Town Manager's decision shall be made to the Town Council. Final determination of any appeal shall be made pursuant to the standards set forth in division (g)(1) above.
- (h) At no time shall the cost of providing required sidewalks or contribution into the Sidewalk Mitigation Program exceed 20% of the construction cost of the project.
