TAB 2. Executive Summary

May 12, 2017

Town Clerk 15150 NW 79th Court, Miami Lakes, Florida 33016

RE: RFP #2017-44 for Disaster Debris Management Services

Dear Ms. Iguanzo,

AshBritt, Inc. (AshBritt) is the national leader in disaster response and recovery operations. As the Town of Miami Lake's current disaster debris management contractor, we are pleased to respond to this RFP for Disaster Debris Management Services. AshBritt was incorporated on October 28, 1992 in the state of Florida and has been engaged in disaster debris removal and recovery operations ever since. Generally, AshBritt performs disaster debris removal work that includes removal, management, reduction, haul out and disposal of all types of disaster-generated debris across the U.S. AshBritt also provides various ancillary services needed when major disasters create the need for power generation, emergency water, food, ice, shelter and other support services.

▲ Experience

AshBritt has managed and performed more than 260 disaster recovery projects and 30 special environmental projects across the United States, **including 83 projects in the state of Florida since our inception in 1992**. We have been directly involved in the disaster recovery efforts of over 60 federally declared disasters in 19 states. AshBritt is one of only two firms to be a part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE). Today we hold the USACE pre-positioned debris removal primary contract for the South Atlantic Division states and for the South Pacific Division states.

A Recent Experience

The debris management project operations that AshBritt has peformed in the last five years is unmatched by any other firm in the industry. In the last five years, AshBritt managed over 13,000,000 cubic yards of debris serving over 170 towns, cities, counties, agencies, states, and special jurisdictions in the states of FL, GA, SC, CT, MA, NJ, NY, VA, TX, CA, and MD. AshBritt collected 5,700,000 cubic yards of disaster-generated debris after Hurricane Matthew.

In response to Hurricane Matthew (October 2016), AshBritt completed 23 separate disaster recovery missions that spanned across 13,439 square miles in Florida, Georgia, and South Carolina. Our operations included: emergency road clearance, collection, reduction and disposal of vegetative and C&D debris, hazardous tree and limb work, beach clean-up, and managing and operating Temporary Debris Management Sites.

▲ Financial Strength

AshBritt's current bonding capacity is \$650,000,000.

Commitment to Safety

AshBritt maintains an excellent safety record. AshBritt's Experience Modification Rating is .78.

▲ Personnel

Our senior operational and field personnel are experts on the federal emergency management standard Incident Command System (ICS), a key component of the National Incident Management System (NIMS). AshBritt has integrated the foundations of the ICS into our own organizational structure and planning standards for response, logistics, and recovery. Our team is also familiar with the base tenets of NIMS and the National Response Plan (NRP) through completion of FEMA Emergency Management Institute training. AshBritt has an average of 40 personnel on staff and will utilize our Corporate Headquarters (15 personnel) to perform the work. We have proven through our capabilities and wherewithal to be a professional, reliable, and competent contracting partner.

▲ Recent and Current Workload

AshBritt recently completed multiple disaster debris removal projects for Hurricane Matthew in Florida, Georgia, and South Carolina for 23 clients. AshBritt utilized over 500 pieces of heavy equipment and 40 project managers and quality control personnel. AshBritt is currently conducting a Marine Debris Removal project in Beaufort County, SC in response to Hurricane Matthew. This project includes assessment and mapping of eligible waterway debris, side scan sonar services, and removal, management and disposal of waterway debris. This current work will not affect our ability to respond in full force to the Town of Miami Lakes if we are activated for disaster recovery services. AshBritt has proven our ability to handle multiple state activations in response to a disaster event while still allowing access to the firm's top-level management personnel. Further information on this ability can be found in the proposal.

▲ Industry Expert

AshBritt works year-round with the federal and state agencies governing disaster recovery, specifically FEMA. We understand the importance to a client of maximizing federal reimbursement, and we have proven experience completing missions within the intervals established by the Sandy Recovery Improvement Act. For example, AshBritt collected and removed more than 9,000,000 cubic yards of debris during the first 60 days of our Hurricane Katrina United States Army Corps of Engineers (USACE) mission and we collected over 5,500,000 cubic yards of debris during the first 90 days of our Hurricane Matthew mission.

▲ Local Partners

Working with local and regional partners, and with small and minority-owned businesses is a core corporate value. We continually identify additional local and regional subcontracting partners.

Note: The Key Staff assigned above will be utilizing the Corporate HQ office location for the Town.

AshBritt's proposal is the most effective and beneficial to the Town of Miami Lakes for the following reasons:

- The experience AshBritt gained in the last five years is unmatched by any other firm in the industry
- Our Corporate Headquarters is 38 miles from the Town
- We have been the Town's disaster debris management contractor since 2012 and have extensive local knowledge of the Town

AshBritt explicitly accepts all conditions and requirements contained in this RFP. This proposal is valid for a period of 120 days from the time set for the bid opening as requested in the RFP. We appreciate your time, and we look forward to continuing our relationship as your recovery partner.

Sincerely. mm

Whn Noble Chief Operating Officer

TAB 3. Qualifications and Experience of the Proposer

A. Background

AshBritt is a national leader in disaster response and recovery services in terms of experience, capacity, quality of service, operational innovation, and financial strength. AshBritt is exclusively a disaster response and recovery contractor; this is our sole business function, and we continue to bring the best recovery solutions to the Town of Miami Lakes. Since our inception in 1992, we have conducted over 260 disaster projects and 30 special environmental projects of various sizes, successfully serving more than 500 clients. We have been directly involved in the recovery efforts of over 60 federally declared disasters in 19 states, beginning with Hurricane Andrew in South Florida and most recently with Hurricane Matthew. Our Past Experience Table, provided upon request, illustrates our broad and extensive performance record. AshBritt has successfully responded: hurricanes, tornadoes, tropical storms, floods, snowstorms, ice storms, earthquakes, wildfires, invasive species infestation. AshBritt has responded to 83 missions throughout Florida dating back to Hurricane Andrew in 1992.

AshBritt has collected over 57,500,000 cubic yards of disaster-generated debris and handled more than 137,500,000 cubic yards of disaster-generated debris. In the last five years, AshBritt completed disaster recovery projects and managed over 13,000,000 cubic yards of debris in the states of FL, GA, SC, CT, MA, NJ, NY, VA, TX, CA, and MD.

- 2016 Hurricane Matthew (DR-4283,4284,4286)
- 2016 California Blue Cut Fire (FM-5147)
- 2016 California Soberanes Fire
- 2016 Texas Severe Storms and Flooding (DR-4269)
- 2016 Collier County Severe Storm
- 2016 Winter Storm Jonas
- 2015 South Carolina Severe Storms and Flooding (DR-4241)
- 2015 California Valley Fire (DR-4240)
- 2015 Texas Severe Storms (DR-4223)
- 2014 Georgia Severe Winter Storm (DR-4165)
- 2014 South Carolina Severe Winter Storm (EM-3369)
- 2012 Hurricane Sandy (DR-4087)
- 2011 Connecticut Severe Storms (DR-4046)
- 2011 Massachusetts Severe Storm and Snowstorm (DR-4051)

AshBritt has been part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE). Today we hold the primary contract for the South Pacific Division (SPD) states and the South Atlantic Division (SAD) states for USACE pre-positioned Advanced Contracting Initiative (ACI) debris removal contracts. This award represents the most elite contract in the disaster recovery industry. Why is this important to the Town of Miami Lakes? Should the Town request direct federal assistance from FEMA for debris removal in response to an incident of national significance which incapacitated the Town, that mission would be assigned to the USACE SAD, and AshBritt will be the primary disaster debris removal and disposal contractor for the entire state of Florida.AshBritt maintains the highest levels of safety, quality, and integrity in conducting our services and operations while adhering to all guidance set forth by OSHA, EPA, and FEMA. In support of past events, we have always met or exceeded small business requirements. As one of AshBritt's core values since our inception, we utilize disadvantaged businesses including but not limited to: Small Business Enterprises (SBE), Historically Underutilized Businesses (HUB), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VBE) to the fullest extent possible in accordance with 2 C.F.R. 200. In terms of safety, AshBritt has an ISNetworld "A" ranking, an Experience Modification Rating of .78.

B. RFP-Q Questionnaire

Please see the following page for AshBritt's RFP-Q Questionnaire.

C. Expertise in Performing Proposed Work

- ▲ AshBritt has conducted over 260 disaster response missions and 30 special environmental projects, successfully serving more than 500 clients.
- AshBritt has been directly involved in the recovery efforts of over 60 federally declared disasters in 19 states.
- ▲ In the last 5 years, AshBritt removed over 13,000,000 cubic yards of debris, giving AshBritt more experience than any company in our industry.
- ▲ AshBritt's bonding capacity is \$650,000,000.
- AshBritt has **\$50 million dollars** of company working capital.
- AshBritt has never defaulted on a contract, failed to complete any project, nor had a payment or performance bond called on any of our projects.
- ▲ AshBritt's Senior Operations team have been working together for a minimum of 11 years.
- ▲ Hurricane Matthew (2016):
 - 24 separate debris removal missions across Florida, Georgia, and South Carolina
 - Collected over 5,700,000 cubic yards of disaster-generated debris
 - Managed 45 Debris Management Sites

▲ Hurricane Sandy (2012):

- Activated as the prime contractor in more than 60 jurisdictions in New Jersey, Connecticut, New York, Maryland, and Virginia
- AshBritt cleared and processed 3,500,000 million cubic yards of debris
- Managed 42 Debris Management Sites

▲ Hurricane Katrina USACE Mission (2005):

- Collected and removed over 9,000,000 cubic yards of debris during the first 60 days
- Average production rate of approximately 150,000 cubic yards per day
- Collected and removed 21,500,000 cubic yards of debris
- Underwrote \$100,000,000
- ▲ AshBritt has an Experience Modification Rating of .78 and an ISNetworld safety "A" ranking.
- Supporting local and small businesses is a core corporate value. We commit to working with Small, Disadvantaged, Minority-Owned, Women-Owned, and Veteran-Owned business enterprises.
- ▲ AshBritt has been part of the National Response Framework since 1998 as a debris contractor for the United States Army Corps of Engineers (USACE).
 - FEIN: 65-0364711

Duns No.: 848970893

D. Filing and Receiving Federal and State Reimbursement

AshBritt has provided a table that identifies the federal reimbursement amount that our clients have received in a select list of our key projects. This table is a testament to our knowledge of Federal, state, and local laws and regulations to conduct large-scale operations for a variety of debris streams while maintaining the most stringent documentation reporting guidelines, which results in maximum federal reimbursement for our clients.

Project Date	CY & Invoice	Reimburse ment	Point of Contact	Scope of Service
Ocean County, NJ Hurricane Sandy 11/12 To 03/13	1,325,876 CYDS \$87,000,000	99% Full Reimburse ment for all invoices submitted by the County.	Ernest Kuhlwein, Solid Waste Director Phone: (732) 506-5047, Email: <u>ekuhlwein@co.ocean.nj.</u> <u>us</u>	ROW debris removal, management, and disposal. Hazardous tree removal and storm drain clearing. DMS operations in multiple locations.
State of Connecticut CT Severe Storm 10/11 To 03/12	1,835,101 CYDS \$73,538,607	100% Full Reimburse ment for all invoices submitted by the State.	Judy Pahl Public Assistance Deputy (860) 256-0821 judy.pahl@ct.gov Fax: (860) 256-0915	ROW collection of vegetative material and removal of hazardous trees for state agencies, including CT DOT and State Parks.
Springfield, MA MA Severe Storm and Snow Storm 11/11 To 03/12	522,664 CYDS \$25,671,027	100% Full Reimburse ment for all invoices submitted by the City.	Chris Cignoli City Engineer (413)750-2808 ccignoli@springfieldcit yhall.com Fax: (413) 787-6173	Emergency Road Clearance, ROW debris removal, management, and disposal. Hazardous tree removal and DMS operations.
State of Massachusetts MA MA Severe Storm & Snowstorm 10/11 To 8/12	1,774,452 CYDS \$79,489,033	100% Full Reimburse ment for all invoices submitted by the State.	David B. Mahr (508) 820-2017 david.mahr@state.ma.us	ROW collection of vegetative material and removal of hazardous trees for state agencies, including CT DOT and State Parks.
Collier County, FL. Hurricane Wilma 10/05 To 02/06	1,278,000 CYDS \$24,300,000	100% Reimburse ment for all invoices submitted by the County.	Daniel Rodriguez, SWM Department (239) 732-2508 <u>danrodriguez@colliergo</u> <u>v.net</u> Fax: (239) 252-3991	AshBritt collected from the right of way and disposed of 344,000 cy of vegetative waste and C&D. AshBritt managed 6 DMS sites. AshBritt also supplied emergency power, emergency containment for petroleum releases, and vacuum truck service to the County.

Orange City	Orange City	FL	2/13/2017	1/31/2020

Our team is prepared to manage multiple contractual obligations simultaneously and at dispersed locations. Our many years of experience and successful performance in emergency response activities demonstrate AshBritt's effective integration and application of actual cost, schedule, and performance control standards. We understand it is imperative to oversee and integrate schedule and cost factors in the completion of all tasks. Please see the following section for our ability to manage disaster debris removal missions across multiple states.

F. Ability to Manage Multiple Florida Based Debris Management Contracts

AshBritt has experience in successfully completing multiple mission activations throughout the U.S. across multiple states since our inception. These contracts will not adversely affect AshBritt's ability to provide the services for the Town. Below is just a review of our proven capability and experience.

- 23 Jurisdictions in response to Hurricane Matthew in 2016 (5,700,000 cubic yards)
- 60 Jurisdictions in response to Hurricane Sandy in 2012 (3,500,000 cubic yards)
- 32 Jurisdictions in response to the Massachusetts Severe Storm and Snow Storm in 2011 (1,700,000 cubic yards)
- 17 Jurisdictions in response to Connecticut Severe Storm and Snow Storm in 2011 (1,800,000 cubic yards)
- 27 Jurisdictions in response to Hurricane Katrina in 2004 2005 (21,500,000 cubic yards)
- 22 Jurisdictions in response to Hurricane Wilma in 2004 (4,500,000 cubic yards)

As identified above, within the last year, AshBritt recently completed over 23 separate debris removal and disaster recovery missions that spanned across 13,439 square miles in Florida, Georgia, and South Carolina in response to Hurricane Matthew.

No other company in this industry has proven their capacity to handle simultaneous cleanups in mutiple states like AshBritt.

G. References

AshBritt maintains a professional, positive relationship with all of our clients. Below is a list of references for similar projects that can attest to our knowledge, quality of work, timeliness, diligence, and flexibility for disaster recovery and debris management services. AshBritt was the primary contractor for all projects listed below and are still active.

<u>Chatham County, GA – Marc Ginsberg,</u> <u>Debris Operations Project Manager</u>

Federal Reimbursement: Pending due to recent nature of the completion of the project Population: 283,379 Square Miles: 632 Phone: (912) 652-6967 Fax: (912) 652-6845 Email: <u>MBGinsbe@chathamcounty.org</u> Address: 7226 Varnedoe Dr. P.O. Box 8161 Savannah, GA 31412 Project Term: OCT 18, 2016 – FEB 23, 2017 Project Details: Hurricane Matthew - 1,620,000 CY Scope: Conducted Right of Way vegetative debris collection, Debris Management Site management,

reduction of vegetative debris through grinding, haul out services, leaner/hanger program and a hazardous stump mission. Project Cost: \$23,023,910

Contract: Still Active

<u>State of Connecticut - Judy Pahl, Public</u> <u>Assistance Deputy Director</u>

Federal Reimbursement: 100% Population: 3,591,000 Square Miles: 5,543 Phone: (860) 685-8543 Fax: (850) 256-0877 Email: judy.pahl@ct.gov Address: DEMHS at DESPP - 111 Country Club Road Fl 3C Middletown, CT 06457 Project Term: OCT 29, 2011 – MAR 12, 2012 Project Details: CT Storm 2011 - 1,835,101 CY Scope: Operations included the removal of hazardous hanging limbs from 86,210 trees, the removal of 11,185 hazardous trees and the loading, hauling, reduction through grinding and disposal, through beneficial re-use, of vegetative material. AshBritt utilized company owned equipment and 141 subcontractors. Contract: Still Active Project Cost: \$73.538.607

<u>Collier County, FL - Daniel Rodriguez, SWM</u> Department

Federal Reimbursement: 100% Population: 348,777 Square Miles: 2,305 Phone: (239) 252-2508 Fax: (239) 252-2530 Email: danrodriguez@colliergov.net Address: 3299 Tamiami Trail East Naples, FL 34112 Project Term: OCT 23, 2005 - FEB 16, 2006 Project Details: Hurricane Wilma - 1,278,000 CY Scope: AshBritt managed 6 DMS sites. Debris was reduced by grinding and compaction. Overall, more than 34,000 loads were managed for both debris collection and disposal, utilizing 614 collection trucks and 216 disposal trucks. Debris was disposed of at 11 final disposal sites, many of which were for beneficial use application of reduced vegetative debris (agricultural and power cogeneration). AshBritt also supplied emergency power, emergency containment for petroleum releases, and vacuum truck service to the County.

Project Cost: \$24,300,000 Contract: Still Active

Note: AshBritt also conducted a 44,000 CY Debris Removal mission due to Severe Storm in 2016 for Collier County.

<u>Sumter County, SC - Karen Hyatt, Assistant</u> <u>Public Works Director</u>

Federal Reimbursement: 100% Population: 40,929 Square Miles: 682 Phone: (803) 436-2242 Fax: (803) 436-2245 Email: khyatt@sumtercountysc.org Address: 21 N. Main Street Sumter, SC 29150 Project Term: FEB 12, 2014 - APR 11, 2014 Project Details: Winter Storm Pax - 105,241 CY Scope: ROW debris removal, management, and disposal. Hazardous tree removal from ROW & county parks. Project Cost: \$2,325,671

Contract: Expired on 12/6/2016

TAB 4. Qualifications of Staff to be Provided

Our senior operational and field personnel are experts on the federal emergency management standard Incident Command System (ICS), a key component of the National Incident Management System (NIMS). AshBritt has integrated the foundations of the ICS into our own organizational structure and planning standards for response, logistics, and recovery. Our team is also familiar with the base tenets of NIMS and the (NRP) National Response Plan through FEMA completion of the Emergency Management Institute training IS-00700, NIMS, An Introduction, and IS- 00800.A, NRP, An Introduction. Our team is certified through the USACE program Construction Quality Management for Contractors, which is the stringent standard for safety and quality control followed by the USACE during disaster recovery missions. We have proven through our capabilities and wherewithal to be a professional,

reliable, and competent contracting partner. We have witnessed first-hand the economic strain and demands that communities face in the aftermath of major disasters. Although state and federal funding to support immediate local recovery efforts may lag significantly proper documentation will aid in the speed of reimbursement from federal and state agencies. To ensure response and recovery progresses and reimbursement is obligated rapidly, we use our records and reporting system identified as Disaster Information Management System (DIMS). This record and reporting system allows AshBritt to give access to the Town to monitor applicable projects. In addition, this allows us to keep tabs on all work being done from the ROW to TDSRS management ensuring a smoother reimbursement process.

A. Available Personnel

The chart reflects the management and supervisory positions anticipated for a disaster recovery event. The size of the management team and number of support personnel hinges on the event magnitude and the scope of the cleanup. AshBritt has presented a chart that sources where additional personnel will be brought in from to ensure sufficient personnel are present to respond to the Town of Miami Lakes.

Personnel Description	AshBritt/Reserve	Contract	Subcontractor	Total
Project Manager	4	0	0	4
Operations Manager	7	0	11	19
Quality Control Manager	10	0	10	20
Operations Supervisor	10	4	10	24
Logistics Managers	7	2	8	17
Sector Managers	8	10	10	28
Quality Control (QC) Manager	5	5	10	20
Field QC Supervisor	5	10	25	40
Field/Site QC Personnel	4	10	50	64
Environmental Health & Safety Manager	3	2	10	15
Health & Safety Monitor	0	10	20	30
Safety Training Personnel	0	5	10	15
Environmental Compliance Manager	1	5	10	16
Hazardous Materials Field Personnel	0	10	25	35

ASHBRITT INC. RESPONSE TO THE TOWN OF MIAMI LAKES RFP NO. 2017-44 FOR DISASTER DEBRIS MANAGEMENT SERVICES

Personnel Description	AshBritt/Reserve	Contract	Subcontractor	Total
TDSRS Director	4	12	25	41
TDSRS Manager	2	25	40	67
Technical Assistance Manager	3	5	15	23
Data/Administrative Personnel	10	35	60	105

B. Organizational Chart

Our Project Management model and staffing organization is designed to fit the unique situational and operational requirements that each debris client/project presents. While we will continually adjust the scale and structure of our team to match daily project requirements, our the Town of Miami Lakes specific organizational chart is located below. AshBritt has identified Dow Knight as the Project Manager should AshBritt be activated by the Town of Miami Lakes.

C. Ability to Secure Subcontractors

AshBritt has over 13,000 registered recovery-related subcontractors and vendors nationwide, with over 1,850 in the state of Florida. AshBritt makes ongoing efforts to create new subcontractor relationships. We welcome any referrals by local representatives to meet and confer with local subcontractors. It benefits all parties involved to establish relationships and commitments prior to any storm event. AshBritt believes that the best solution is pre-disaster planning for identification and eventual inclusion of local businesses in the post-event recovery projects. The pre-event planning and relationship building must take place on an annual basis, and any subcontractor lists or relationships will

be consistently updated. Identification of subcontractors is ideally conducted as part of the pre-planning process prior to the event response. Given the unpredictability of disasters, identification of subcontractors, especially those within the Town and surrounding affected areas, occurs just after events and often throughout the recovery. In addition to utilizing the pre-identified subcontractors, we use various public and private sources that can garner additional useful and qualified subcontractors. We work toward cataloging all identified firms into our subcontractor database. Our Subcontractor Management System is a customized web-based computer application that allows for efficient information storage, retrieval, and subsequent ongoing identification of subcontractors from the affected region. A robust and sophisticated set of filtering parameters allows for the efficient culling of relevant data, making our selection process one of the most thorough and rapid screening processes in the industry.

AshBritt has utilized labor pool companies in past activations and is familiar with acquiring and training personnel from all backgrounds. More importantly, AshBritt has a robust pool of reservists we can utilize at a moment's notice.

D. Office Location

Corporate HQ Responsible for Project: 565 East Hillsboro Blvd. Deerfield Beach, FL 33441.

Dow Knight has been identified as the Project Manager responsible for the planning and administration of the contract. Dow has been with AshBritt for 14 years and has been in his current position since joining the company. (P) (954) 818-4416, (E) <u>dow@ashbritt.com</u>. Mr. Knight served as the Project Manager, Operations Manager, Quality Control Manager, or held other key personnel roles for all of the disaster recovery and debris removal projects listed below:

- Hurricane Matthew (DR-4284), Oct. 2016 Chatham County & Pooler, GA
- Winter Storm Jonas, Jan 2016 Multiple Jurisdictions in MD & VA
- Valley Fire (DR-4240), Dec 2015 Lake County, CA
- Valley Fire (DR-4240), Oct 2015, Pacific Gas & Electric Lake County, CA
- Winter Storm Pax (DR-4165) & (EM-3369), Feb. 2014 GA & SC
- Hurricane Sandy (DR-4085-6), Oct. 2012 NJ
- Deepwater Horizon Oil Spill, FDEP, 2010 Bay County & Gulf County, FL
- Haiti Earthquake Response, 2010 Port Au Prince, Haiti
- Hurricane Ike (DR-1791), Sept. 2008 Southeast TX
- Hurricane Dolly (DR-1780), July 2008 Hidalgo County, TX
- Severe Ice Storm (EM-3268), 2006 Alden & Eerie County, NY
- Hurricane Wilma (DR-1609), 2006 Weston, FL
- Hurricane Katrina (DR-1603) & (DR-1604), 2005 MS & LA
- Hurricane Katrina (DR-1609) Broward County, FL
- Southern California Edison Bark Beetle Tree Removal Program 2004
- Hurricane Dennis (DR-1609) Escambia County, FL
- Citrus Canker Eradication Program, FL Department of Agricultural 2005
- Hurricane Charley, Sept. 2004 Charlotte County, FL
- Hurricane Isabel, 2004 Hampton, VA

E. Resumes of Key Personnel

AshBritt has provided resumes for AshBritt's Senior Operations Advisor, Project Manager, and Operations Manager. Upon request, AshBritt can provide additional resumes. Due to page restrictions, others are excluded.

Brittany Perkins Chief Executive Officer

Overview:

Brittany Perkins is the Chief Executive Officer at AshBritt Environmental and has been a member of the company's Board of Directors since 2014. Brittany oversees corporate direction, strategy and client relations and manages business partnerships. After being named Chief Executive Officer in 2016, Brittany led AshBritt's operations in response to the Blue Cut Fire and the Soberanes Fire in California and to Hurricane Matthew. AshBritt's Hurricane Matthew operations included 23 jobs across 3 states and the collection of over 5.7 million cubic yards of storm-generated debris.

Prior to joining AshBritt, Brittany managed a law practice in Austin, Texas, held positions as a prosecutor in Texas and Florida, and was a program manager for projects in Washington, D.C. and Doha, Qatar. Brittany holds a Juris Doctor from The University of Texas at Austin and Bachelor State Bar Arts in Public Policy from Vanderbilt University. She is bilingual English-Spanish and is a member of the State Bar of Texas. Brittany is Chair of the AshBritt Foundation, serves on the Board of the 4Girls Foundation, and maintains an active pro bono legal practice working with survivors of domestic violence and individuals and families impacted by disasters.

Randal Perkins Senior Operations Advisor/ Chairman of Board

Overview:

Randal "Randy" Perkins founded AshBritt in 1992 and led the company as President and CEO until 2016. Randy currently serves as Senior Advisor to AshBritt, Chairman of AshBritt's Board of Directors, and is active in the AshBritt Foundation. Randy also maintains an active leadership role during operations. Randy is highly qualified and experienced in all phases of disaster response and recovery operations from his 25 years of hands-on experience in this industry. He has in-depth knowledge of all response measures, including damage assessment, debris collection, removal, reduction, recycling, and disposal activities. Moreover, Randy is a skilled communicator who supports high-level stakeholders with the public information demands following major disaster events. Randy holds seats on the Board of Directors of several national charitable organizations and is very active in state and local charitable endeavors.

John Noble Chief Operating Officer/ Sr. Ops. Mgr.

Overview:

John Noble is an environmental engineer who earned his Master's degree in Solid and Hazardous Waste Management from the University of Florida. He also is a graduate of the United States Military Academy at West Point, where he earned a Bachelor's Degree in Civil Engineering-Engineering Management. Over his career, John has managed a long line of environmental construction and mitigation projects. Since joining the AshBritt team in 1994, he has successfully overseen the operations of over 100 mid-to-large-scale disaster response and recovery projects, and he has provided operational oversight for all of AshBritt's recovery deployments. John is currently a State of Florida Board of Professional Engineers – Engineer Intern (# 1096ET126) and a licensed Certified Pollutant Storage System Contractor (No. PC C056744). He is certified in OSHA's 40 Hour Hazardous Waste Operations and Emergency Response training, the 8-Hour Annual Refresher course, and the USACE Contractor Quality Control Management (CQCM) for Contractors. Mr. Noble is responsible for leading and managing the organization's operations. Duties include but are not limited to bid research, debris estimating, subcontractor coordination, equipment selection and acquisition, project management, invoicing, and reporting. He is also responsible for the management of all Project Managers, Project Managers, and safety functions.

Dow Knight Sr. VP/Project Manager

Overview:

Dow Knight is a graduate of the United States Merchant Marine Academy in Kings Point, New York. His maritime and inter-modal experience, both ashore and at sea, provides AshBritt with the logistics and transportation experience necessary to conduct large-scale operations for both domestic and international response requirements. For over a decade, AshBritt has applied his expertise toward the management of timely and efficient resource allocations for disaster projects. We have also relied on his management expertise and organizational skills in navigating the complexities of planning and executing large-scale, multifaceted response and recovery projects. Holding a degree in Marine Transportation, Dow also provides operational oversight for all marine services projects, whether disaster-related or through general opportunities. Additionally, he is a Commander in the Navy Reserve assigned to US Southern Command, and in 2010 deployed overseas in support of Operation Enduring Freedom. Dow was recently providing strategic direction for our disaster debris removal mission in Chatham County, GA in response to Hurricane Matthew. In this capacity, he provided project leadership on all project activities from project personnel and subcontractor management and assignments scheduling, documentation and reporting as well as a host of other duties.

Disaster Recovery Experience Select AshBritt Experience: Since 2003

Ralph Dahlgren Sr. VP/Quality Control Manager

Overview:

Ralph Dahlgren is a Senior Vice President with over 20 years of experience in customer service, transportation logistics, operations and property management. Prior to joining AshBritt in 2004, Ralph refined his professional management career by playing a key role as the General Manager overseeing all day-to-day operations for a 15-acre Disney Resort property in Hilton Head Island, SC. Since joining AshBritt in 2004, Ralph has established a track record as a multi-talented and proactive manager with strong leadership techniques and a proven ability to maintain excellent client relations. Ralph has successfully managed the response and recovery efforts in more than 25 federally declared disasters. His primary client relations functions include the identification of potential clients and managing the relationships with existing clients. The core focus in both of these areas includes client meetings, RFP identification, training, proposal development, and negotiations. During active response operations, he will function in the role of Senior Project Manager/Operations Manager. Responsibilities in this role include management of disaster-related debris removal, DMS management and residual disposal, quality control and FEMA technical assistance. These functions go hand in hand with financial and administrative control of storm collection and debris disposal including data entry, client invoicing, and subcontractor invoice reconciliation. He may also act as the liaison with the monitoring firm and can assume the role as the Quality Control Manager or Operations Planner. Ralph has also been a member of the USACE Safety Pays committee, Jacksonville District since 2009. Ralph's most recently served as Operations Manager for Volusia County, FL in charge of overall project operational management for our Hurricane Matthew (DR-4283) Disaster Debris Removal Project.

	 Manager of Ground Services, Disney Cruise Line He developed the ground service operation from pre-development to launch
	including the business plan, service levels and staffing. He developed, negotiated,

and executed comprehensive third-party service agreements for guest transportation.

Matt Gierden VP/Quality Control Supervisor

Overview:

Matt offers more than 15 years of experience in disaster recovery projects, special environmental operations, client development, customer service, and public relations. He is a strategic contributor for numerous efforts that have driven the successful completion of major and high-priority disaster response and recovery initiatives that have substantially impacted the company's growth. Over the years, Matt has established a reputation as a decisive leader who expertly enhances the capabilities of the organization. He handles new challenges with his intrinsic capability for innovation and problem-solving. Equipped with an enthusiastic attitude and exceptional people skills, he successfully maintains a myriad of client relationships throughout the southeast US. Matt initially served as an entry-level field supervisor in 2002 and was immediately promoted to project manager to regional manager and later to vice president. Matt's ambitious and visionary style has significantly enhanced the company's ability to thrive in a variety of demanding disaster recovery environments. His ever-expanding portfolio of successful projects includes more than 40 Federal Emergency Management Agency (FEMA) disaster recovery projects. His most recent contribution was providing strategic direction for our Hurricane Matthew disaster debris removal mission for Charleston and Colleton County, SC (DR-4286).

Rob Ray Sr. VP/Logistics Manager

Overview:

Rob Ray has 22 years of Business Development and Customer Service management experience, with specific experience in disaster response/recovery, environmental contracting, foreign relations contracting and safety training management. He currently serves as a Sr. Vice President, managing Client Relations throughout multiple states. Rob first collaborated with AshBritt, as part of a joint venture in 2003, as an Operations Manager for several large-scale hazardous fire fuels reduction projects that included high volume Hazardous Tree Removal in San Diego County, San Bernardino County, and Riverside County, California. In 2005, Rob served as both a Senior Project Manager and as the Operations Manager for the USACE Hurricane Katrina State of Mississippi recovery operations, coordinating and assisting in organizing over 1,000 subcontractors for disaster recovery operations in 16 counties. Rob has managed more than 60 disaster recovery projects and continues to surpass client expectations and project goals through his effective management and operational expertise. Rob most recently served as Operations Manager in charge of overall project operational management for our Hurricane Matthew SCDOT Dillion, Dorchester, and Marlboro County (DR-4286) Disaster Debris Removal Project.

Brett Postelli

Environmental Health and Safety Manager

Overview:

Responsible for establishing and communicating mission safety rules, ensuring vehicle, vessel, and equipment safety inspections are to specifications, preparing weekly safety meeting agendas, investigating accidents, implementing and reviewing DMS Site-specific Safety and Health Plans and updating as appropriate, performing structural safety inspections, including the DMS inspection towers. He serves as a liaison with client safety representative(s).

Disaster Recovery Experience 10 Years

Areas of Expertise

- Safety
- Waterway Management
- Trainings
- Hazardous Waste

Training & Certifications

- USACE: UXO/EOD #2657
- Over 20 Medical First Responder Certifications
- Multiple Hazardous Material Handling Certifications
- Certified as Instructor for Hazardous Materials, First Responder Courses, Rescue SCUBA, and Anti-Terrorism Courses.
- Highly Specialized in Unexploded Ordinance Trainings
- 40 Hr. & 8 Hr. HAZWOPER
- USACE CQCM for Contractors

Education

- TA&M Unexploded Ordinance Tech (UXO), College Station, TX - 2010
- International School for Security & Explosives (EOD 1)– College Station, TX -2010
- Kalamazoo Valley College, Fire Science/ Police Academy, Kalamazoo, MI -1994

Select AshBritt Experience: Since 2010

Mr. Postelli has served as the Environmental Health and Safety Manager, Quality Control Manager, Operations Manager, or held another key role for all of the disaster recovery and debris removal projects listed below:

- Hurricane Matthew, Oct. 2016 Florida, Georgia, and South Carolina ROW collection and disposal, Sand Screening, and Hazardous Tree Removal.
- Hurricane Sandy (DR-4085-6), Oct. 2012 NJ Vessel removal and management, ROW, and DMS Management.
- Deepwater Horizon Oil Spill, FDEP, 2010 Bay County & Gulf County, FL Mobilization, staging, and deployment of 100,000 linear ft. of deflection boom.

Nationwide Training & Safety Services, MI: Since 2003

Training & Safety Officer

Provide specialized training for Emergency Medical Response, 40 Hr. HAZWOPER, Confined Space, Level I-IV Confined Space Rescue, Antiterrorism, Maritime Safety & Security, Industrial Fire Brigade, Maritime Firefighting, Physical & Technical Security. Acts as Safety Officer and Project Manager for clients.

GEO Group, TX: 2012

Fire & Safety Manager

Responsible for all fire, safety, security matters in a federal corrections setting. Perform scheduled and unscheduled emergency drills to evaluate departments' strengths and weaknesses in response procedures.

Veolia ES, CA: 2009 – 2011

Emergency Response & EHS Manager

Responded to national hazmat and explosive incidents (Industrial fires, BP oil spill, pipeline ruptures, lab explosions, meth labs, rail car leaks, interstate spills/releases, etc.)

Conducted regulatory training and occupational safety training. (i.e., 40hr HAZWOPER, Confined Space Entry/Rescue, Technical Rescue, First Aid/CPR, etc.)

Assist the USACE, DOD, and EMR Environmental in the remediation process of Unexploded Ordnance in the Great Lakes, by writing an Explosive Safety Site Plan and Explosive Disposal Procedures.

Underwater Construction Corporation, MI: 2007-2009

Safety & Electronics Specialist

Communication specialist and underwater surveillance system tech for the nuclear diving company. Provided site safety and safety training to all divers and personnel.

Atlantic Group, VA: 2006-2007

- NRC Nuclear Radiation Worker
 - Provide supplemental support as an NRC certified Radiation Worker to Nuclear Power Stations throughout the United States, providing special services in technical and industrial skills.

Christina D'Emidio Controller

Overview:

Accounting administrator for all AshBritt projects since 2005. Mrs. D'Emidio manages all payables, reconciles operational reporting to subcontractor invoices, processes subcontractor invoices for payment, and is the lead data entry and invoicing contact. As Project Administrator, she handled all invoicing and subcontractor files for over 300 subcontractors in the Hancock and Pass Christian projects in Mississippi following Hurricane Katrina (2005-2007). She assisted the project managers in all administrative duties. This included but was not limited to, scanning and uploaded all tickets for the state of Louisiana following Hurricane Katrina (2005). Furthermore, she assisted with subcontractor invoices and contracts.

	Row Debris removal of vegetation and C&D in addition to waterways.

F. Field Staff Related Work

As identified in Tab (4), Section E., AshBritt has presented experience of our field staff on related work in their resumes.

TAB 5. Operations Plan

A. All Aspect of Proposed Project

As expected by the Town, AshBritt acknowledges and is prepared to deliver the proposed scope of services from overall planning, management, to the execution of work. The AshBritt project team, in collaboration with Town representatives, will create a site-specific plan for each disaster incident. The plan will encompass operational and administrative functions including organizational structure, reporting lines, communications, documentation, and meeting protocols. The plan will contain provisions for obtaining necessary permits and authorities for geographic area management, and for appropriate identification, handling and disposal of debris materials at specific locations.

We will provide efficient and transparent emergency services, debris removal management services, and contract management services.

AshBritt will abide by the regulations including but not limited to those established by the following agencies:

- Occupational Safety and Health Administration (OSHA)
- Florida Department of Environmental Protection (FDEP)
- Environmental Protection Agency (EPA)
- Federal Emergency Management Agency (FEMA)
- Florida Division of Emergency Management
- Federal Highway Administration (FHWA)
- All other applicable federal, state and local agency and authorities

As an important function to comply with state and local environmental and business regulations, AshBritt will secure and conform to all necessary licenses and permits applicable to the recovery work. Appropriate licenses and permits may include:

- General contractors license
- Local business licenses
- Temporary land-use permits
- Land-use variances
- Grading permits
- Waste processing permits
- Recycling operations permits

- Water and air quality permits
- Fire department permits
- Traffic permits
- Hazardous waste permits
- Coastal commission land-use permits
- National Environmental Policy Act (NEPA) compliance permits

We will ensure that all of our operations, including all subcontracted work, will be completed in accordance with all federal, state and local laws, codes, rules and regulations as applicable.

AshBritt's team has developed a working knowledge of the current regulations and language pertaining to the FEMA Public Assistance Program, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, the Sandy Recovery Improvement Act, and many other relevant federal programs. More importantly, we have personnel that have administered many of these recovery programs for the State Divisions of Emergency Management and FEMA. In addition, we continually work with our clients to maximize their federal reimbursement by assisting them with a variety of necessary quality control checks.

AshBritt will be physically present at the Town's Emergency Operations Center within twenty-four (24) hours after the thirty-six (36)-hour hurricane warning is issued. AshBritt will be assisting in the impact assessment and required resources; assessing damage; coordinating helicopter survey; preparing for first push; ordering and staging equipment and supplies; and assisting in coordinating the action plan to be operational in the first twenty-four (24) hours. Planning for disaster response and recovery cannot be overstated; it is paramount to the success of any recovery mission. In addition to the Town's annual training sessions, AshBritt will encourage the Town to partake in our sponsored annual pre-event planning and training.

It is paramount to AshBritt to conduct our work with the highest levels of safety, quality, and environmental stewardship. We hold all of our employees and subcontracting partners responsible for meeting these standards. We enforce comprehensive Health & Safety, Quality Control, and Environmental Control Plans on all of our personnel. AshBritt will supervise and direct the work, using skilled labor and proper equipment for all tasks.

B. Organizational Structure of Firm

All operational direction and orders related to our response and site-specific Debris Management Plan and all the previously delineated processes will be directly channeled down our organizational command line through our Project Manager. The Project Manager will directly communicate with Town representatives in all functional areas of the EOC and ICS structure. They will relay pertinent information regarding the contract and the mission to our management and field team. This will include all specific task orders, authorizations and approvals for resource commitment. Team managers and supervisors will, in turn, receive and disseminate information down the line and translate into operational action. AshBritt will put an administrative process in place to track and log all project communications and deliverables.

AshBritt's general organizational structure is based closely on the features of the Incident Command System (ICS). It is modeled in a top-down, modular fashion that allows for both expansion and contraction depending on the size and complexity of the event to which we respond. We have a base organization structure and staffing plan for sole contract activations and a base expanding structure for multiple task orders or activations for regional and statewide contract scenarios.

C. & D. & E. Methods for Tasks, Aspects of Project, Details of Work Plans

AshBritt has summarized each response level and their methodologies. These Event Profiles and Scenarios are a more general depiction of our response to the various events that may impact the Town.

Event	Scope of Work/Methodologies
<u>Spot Jobs –</u>	AshBritt will provide assistance in clearing, removing, collecting, hauling and
Localized	reducing localized clean woody storm debris. Work would consist of augmenting
	and assisting local government assets and manpower. Less extensive management
	and technical support would be required. Local reserve subcontractors would be
	deployed and augmented as necessary by AshBritt's own equipment. Mobilization
	and certification of requisite assets and resources (60 to 80%) will occur within 6 to
	24 hours of a notice-to-proceed (NTP) by the Town, with all on-site within 48 hours.
	Personnel and equipment will be on standby in the region 48 to 24 hours in advance
	of known "tracking" events (100-mile radius).
<u>Small Event -</u>	AshBritt will provide all necessary supervision, labor, and equipment to haul,
Widespread	recycle, and/or dispose of all types of debris with its own resources, except where
<u>or Townwide</u>	public land is provided for debris management sites. A specialized and dedicated
	management team commensurate to the scale of the event would be deployed. Local
	reserve subs, AshBritt resources, and primary standby subs, would be mobilized and
	deployed. Essential management and planning personnel will be available to the
	Town pre-event as needed. Field supervisory personnel will be available within 6 to
	24 hours, on an incremental basis. The majority of equipment and resources will be
	mobilized within 12 hours following an event, with 80% or more of assets on-site
	within 48 hours. The balance of any specialized equipment will be on-site within 72
	hours. Personnel and equipment will be on standby safely nearby the Town 48 to 24
	hours in advance of known "tracking" events (generally within a 100-mile radius
Significant.	for safety considerations).
<u>Significant</u>	AshBritt will provide all necessary supervision, labor, and equipment to remove,
<u>Event –</u>	reduce (i.e., grind or burn) and haul clean woody debris to a disposal site managed
Removal, Reduction	and operated by the Town or AshBritt. A larger and specialized management team
Reduction,	commensurate with the scale of the event would be deployed. Pre-positioned
<u>Hauling -</u>	standby subs and local, regional, and primary first responders, who will be safely

ASHBRITT INC. RESPONSE TO THE TOWN OF MIAMI LAKES RFP NO. 2017-44 FOR DISASTER DEBRIS MANAGEMENT SERVICES

Event	Scope of Work/Methodologies
Woody Debris	staged well in advance of event impact (100-mile radius) will converge on the
Only -	affected area immediately under the direct guidance and coordination of our senior
Widespread	management. Local contractors would be coordinated and deployed to the greatest
or Townwide	extent possible. To the degree they are impaired, out-of-area subs will be mobilized
	and employed temporarily. Essential management and planning personnel will be
	available to the Town pre-event as needed. Field supervisory personnel will be
	available within 6 to 24, on an incremental basis. Most equipment and resources
	will be mobilized within 24 to 48 hours following an event, with all equipment on-
	site within 72 to 96 hours.
<u>Significant</u>	AshBritt will provide all necessary supervision, labor, and equipment to remove,
<u>Event -</u>	reduce (i.e., grind or burn) and haul clean woody debris to a disposal site managed
Removal,	and operated by the Town or AshBritt. A larger, specialized management team
Reduction,	commensurate with the scale of the event would be deployed. Pre-positioned
Hauling &	standby subs and local, regional, and primary first responders, who will be safely
<u>Separating</u>	staged well in advance of event impact (100-mile radius) will converge on the
Mixed Debris	affected area immediately under the direct guidance and coordination of our senior
<u>– Townwide</u>	management. Local contractors would be coordinated and deployed to the greatest
	extent possible. To the degree they are impaired, out-of-area subs will be mobilized and employed temporarily. Essential management and planning personnel will be
	and employed temporarily. Essential management and planning personnel will be available to the Town pre-event as needed. Field supervisory personnel will be
	available within 6 to 24, on an incremental basis-as needed. Most equipment and
	resources will be mobilized within 24 to 48 hours following an event, with all
	equipment on-site within 72 to 96 hours.
Catastrophic	AshBritt will provide all necessary supervision, labor, and equipment to remove,

ASHBRITT INC. RESPONSE TO THE TOWN OF MIAMI LAKES RFP NO. 2017-44 FOR DISASTER DEBRIS MANAGEMENT SERVICES

Event	Scope of Work/Methodologies
	available to local residents adversely affected by the event for employment by AshBritt at sites (spotters, security, flaggers, traffic control, etc.).
<u>Catastrophic</u> <u>Event - Total</u> Management -	Ashbritt at sites (spotters, security, haggers, traffic control, etc.). Ashbritt will be tasked to combine site management and field operations as delineated and discussed above for the removal through final disposal of mixed debris. This may occur at multiple and different sites throughout and potentially
Townwide	outside the County. All above general approaches and methodologies would be adhered to and incorporated. Please refer to our Response Plan, for further information on the approach, methodologies and scope of services for all aspects of the foregoing scenarios. AshBritt maintains comprehensive plans and protocols for the orderly, efficient and rapid execution of all functions necessary in the performance of these tasks.
<u>Technical</u> <u>Assistance -</u> <u>Total Project</u> <u>Management -</u> <u>Townwide</u>	Ashbritt will provide all necessary technical assistance and guidance (i.e., documentation and reimbursement protocols) to Town appointed and elected officials and departments before, throughout and following an event impact. This includes, but is not limited to: 1) assistance with documentation, recordkeeping, reporting, billing and administrative functions before, during, and after an event (through audit, as required); 2) supply and/or review of user-friendly worksheets, forms, reports (AshBritt, FEMA & state forms) provided in electronic format; and 3) assistance with special projects, scopes of work, considerations and other funding opportunities outside of PA program. AshBritt will provide annual seminars and workshops to educate and train Town representatives and local subs with respect to performance rules, documentation guidelines, 2 C.F.R. 200.317-326, and acceptable procedures.
<u>Program</u> <u>Management</u> <u>Assistance -</u> <u>Townwide</u>	AshBritt will provide program management assistance and guidance to the Town up to a level that is considered neutral and non-conflicting by governing authorities. Public Assistance program functions, in regards to Damage Survey Reports (DSR), Project Worksheet (PW) completing and filing, other claim documentation preparation and filing, and consultations, recommendations and negotiations on plans of action and funding guidance, are generally the responsibility of the applicant (subgrantee) or a neutral third-party representative (monitoring/consultant firm). AshBritt, as the debris management contractor, can only assist, make recommendations, and guide Town representatives in an advisory role, with all communications being conducted in a written format. To avoid any conflicts of interest, AshBritt personnel cannot prepare any documentation outside of our contractually obligated forms, logs, reports, permits, etc. related to debris management task; we can and will review DSRs, PWs and other documentation for administrative accuracy at the Town's request and we will supply expert subject matter experts in cases of confusion or conflict with funding authorities.

F. Methods of Mobilization/Demobilization

Our approach encompasses two types of potential occurrences: predictable threats with advanced warnings and the ability to monitor and track the situation of unpredictable events, which can have sudden, catastrophic impact. Our response, mobilization, and approach to all disasters pre and post-event are uniform and consistent, as we follow established base guidelines and Standard Operating Procedures (SOP). For predictable events, we will pre-plan and prepare for a rapid, coordinated, and efficient mobilization. We will commence mobilization, alert, activate and prepare our management team, staff, reserve staff, consultants, subcontractors, vendors, and suppliers for deployment. This will allow us to respond almost simultaneously with the passing of any event. For an unpredictable event, we employ the same tiered approach, yet all actions are compressed and sufficiently expedited to ensure the most rapid response in line with post, real-time assessments. We will have the maximum number of resources available and be ready to deploy in the shortest timeframe. AshBritt has a proven ability to have all critical personnel, pre-identified first-responder subcontractors, critical supplies, and materials, ready to move. AshBritt's operational prepositioning allows us to mobilize immediately upon issuance of a task order and notice-to-proceed for debris removal, emergency debris clearance, TDSRS mgt., or other tasks.

AshBritt's recovery work is not complete until we conduct a final audit/reconciliation. All truck certifications, load tickets, work logs, time sheets, invoices, etc., will be reconciled to ensure all work has been accurately accounted for and correctly invoiced. AshBritt will keep the Town abreast of all of its mobilization and demobilization actions throughout the project. Our Quality Control field personnel consistently survey and report results in order to maintain an efficient allocation of resources. As subcontractors complete zones, the areas are jointly surveyed with the Town or its designated monitoring firm and closed out. Subcontractors are either shifted to areas needing attention or officially released from the job. Throughout this phase, AshBritt will maintain extensive reporting of all debris loads and will provide the Town with daily, weekly, and monthly status reports to illustrate production rates and progress. As the project winds down, AshBritt may start demobilizing resources but will always maintain necessary personnel that oversee all projects.

G. Documenting and Resolving Issues

The health, safety, and protection of all stakeholders and infrastructure, both public and private, is of paramount importance to AshBritt during a recovery mission. Safety and protection of property hinges on a strong safety and quality control plan, which applies to all tasks and operations during the recovery. AshBritt, through years of recovery experience, recognizes that even under ideal conditions and when conforming to the highest safety and quality control standards, incidental accidents, and damages may occur during the operation.

Generally, disaster sites are fraught with hazards, obstacles, and unpredictable and unanticipated environments. Through our Quality Control Plan, AshBritt employs a systematic and expeditious process to address project deficiencies. Deficiencies encompass reported private property damage, public property and infrastructure damage, citizen complaints, hazard reports (i.e., debris pile obstructions, overhanging debris in trucks, etc.), accidents, and safety violations. Our QC Manager (QCM), supported by our QC Field Supervisors, administers and enforces this program. AshBritt may establish a 24-hour hotline to field citizen reports of damages, other complaints, and general inquiries. The QCM will oversee all deficiencies and inquiries and their resolution. A hotline number and a designated email address, if necessary, will be announced to citizens via public service announcements (PSA) and flyers. Information will also be published on our website, and it will be clearly disseminated via Town representatives to concerned citizens.

H. Invoicing and Data Management

With AshBritt's extensive experience and advanced Disaster Information Management System (DIMS), we can ensure streamlined and accurate reporting and invoicing which adheres strictly to established FEMA and FHWA guidelines. We can accommodate any frequency of billing cycles that are preceded by pre-invoice data reconciliations. This encompasses both unit and hourly rate services. Our streamlined process, which has been field tested over many years, has become our standard operating procedure and is now utilized for all invoice submittals.

As we separately track recovery service data through DIMS and other field reporting, all costs we invoice are segregated accordingly and clearly delineated on all invoices. All other pertinent information is clearly identified on invoices, and applicable backup is attached in a clear and concise fashion. This procedure increases both invoice clarity and accuracy. Our procedures significantly expedite client processing, audits and grant reimbursements.

Our processes are extremely adaptable and flexible so that we can accommodate any specific billing procedures or systems. For the Town, payment for work completed will be invoiced on a 30-day period. Invoices will be based on verified quantities from the daily operational reports. Applicable backup for all invoices will be included for ease of review and to facilitate timely reimbursement. Hourly Equipment Logs and Time Sheets are used during the emergency roadway clearing phase (emergency push). These are multi-part forms that are distributed to applicable parties. In addition to completed Truck Measurement Records and Load Tickets that are scanned and stored in our database, manual truck measurements are organized in binders for backup purposes. Quality Control Representative (QCR) Deficiency Reports and other safety reports and logs are kept. All reports are collected and compiled by field supervisors and managers. They route them daily to our central processing office, where our

Operations Manager reviews as necessary. Ultimately, a process is established to collect all the documentation needed to validate the location, time, type, and length of services conducted.

Per any the Town of Miami Lakes guidance and instruction, AshBritt will submit all project invoices. applicable backup and supporting documentation as required for validation. AshBritt will include hard copies as backup for all billing periods in an Excel spreadsheet format to the Town. AshBritt recognizes that payments will not be made based off incorrect invoices; however, if our pre-invoice data reconciliation process is followed, all invoices should be fast-tracked for approval and payment. If a submitted invoice is erroneous, AshBritt will correct all errors and submit a revised invoice for payment. AshBritt will not bill for any debris collected in areas located outside of the assigned debris control zone, nor will we bill duplicate tickets. Our backup data and Excel spreadsheet will include all required information. Hard copies of the backup data accompanying all invoices will contain data and information pertaining to the applicable invoice. The spreadsheet included with each invoice summarizes all data and information from the project being billed during that period. The backup data will contain documentation from the field monitor for the invoice being submitted. All invoices will be submitted with a detailed tabular report listing all individual load tickets. The report will meet the Town's requirements for invoicing and be approved prior to the invoicing process. AshBritt will comply with Record Retention and Access (2 C.F.R. 200.333-337) regulations and will maintain records for a minimum of seven years.

• Automated Debris Management System (ADMS)

ADMS is a technology that eliminates the need for paper-based tickets during the disaster recovery mission. The ADMS systems operate using a mobile device such as a smartphone, personal digital assistant (PDA) or other portable hardware. Field Monitors capture pertinent information with the devices including GPS location, date/time, and equipment number and store it on the mobile device. Current systems utilize bar code technology, QR code or smart cards to collect pertinent data. Devices are capable of recording date, time, and location and some also have digital cameras for photo documentation. This functionality reduces data entry errors and allows for near real-time data review of operations. Discrepancies are significantly reduced resulting in cost savings and efficiencies. In the event an ADMS system is utilized, all data will be recorded electronically. ADMS systems improve production assessments and are a beneficial tool for developing public information messages.

AshBritt has experience working with multiple Automated Debris Management Systems including those monitoring firms like Tetra-Tech (RECOVERYTRAC), Rostan Solutions (HaulPass), and Thompson Engineering (Thompson Data Management Suite).

Clean-As-You-Go

During all phases of work, with our resources or subcontractor's resources, we enforce our clean-as-you-go policy. The concept of Clean-As-You-Go is a component of our Quality Control Plan. C-A-Y-G epitomizes the value of "do it right the first time." AshBritt field personnel and forces will be directed to complete assignments and cleanup activities as thoroughly as practicable at each stage of work so as to avoid do-over's, inefficiencies, and delays. C-A-Y-G does not interfere with the concept of multiple debris passes, but emphasizes the objective of removing all accessible and eligible debris during each respective pass, sometimes employing basic hand laborers and tools. Maintaining C-A-Y-G objectives is especially important for debris work on emergencies and major disasters where restoration of critical public functions is the highest priority. AshBritt personnel and subcontracted partners will be expected to abide by this policy. If after orientation and performing under the C-A-Y-G concept work site conditions do not reflect the objectives of this policy, AshBritt personnel and subcontractors will be subject to corrective action which may include dismissal from the project.

TAB 6. Financial Capability

• A. Financial Status

- Bonding: Liberty Mutual \$650 Million
- \$50 Million Company Working Capital Available
- **\$25 Million Working Capital Line of Credit**
- Underwrote \$100 Million for USACE Katrina Mission

Financial liquidity and an abundance of assets are critical to recovery success; access to immediate operational funds, and in many cases longer-term credit, is one of the most critical factors in the response and recovery efforts that allows all activities to move forward toward getting the job done. AshBritt, as the

following financial overview illustrates, is financially sound and has the capital strength to accommodate the increased cash flow demands throughout any disaster recovery mission. We possess the financial capacity and ability to assume extensive and substantial expenditures for prolonged periods (historically exceeding 150 days in some instances) before receiving any funds for our response and recovery services. Following any large-scale, widespread disaster event, the Town's resources, infrastructure, and processes may become overwhelmed. Reliable financial support and sound management at this time are vital to this effort. AshBritt is a proven nationwide disaster response and recovery firm with substantial financial resources, capabilities, and experience. Our historical record and our supporting financial documentation clearly validate these strengths. In the letter from our bonding company, they state: *"It is the privilege of Liberty Mutual Insurance Company to provide surety support for AshBritt, Inc. In the past, AshBritt, Inc. has successfully completed single projects in the \$500,000,000.00 range with an overall program of \$650,000,000.00 US Dollars."*

AshBritt possesses one of the most reputable records for ensuring that all of our employees, subcontractors, consultants, and independent contractors are paid expeditiously and in full.

As one testament to our values, AshBritt has never defaulted on a contract or failed to complete any

project. AshBritt has never had a payment or performance bond called on any of our projects. Our billing terms are typically net 30, yet, we have and can "underwrite" funds as necessary to keep any project progressing, and on track to serve the best interest of our clients. With our own capital reserves and our significant line of credit, as well as the ability to draw on resources from some of our long standing business partners, we can maintain and finance multiple, large, and extended projects. Our ability to ramp-up and maintain a strong workforce during the Hurricane Sandy (2012) mission in New Jersey and Hurricane Katrina (2005) recovery mission in Louisiana and Mississippi is a solid testament to our financial capabilities. During these events, AshBritt was able to sustain operations that excelled into the hundreds of millions of dollars without receiving any payment from our clients.

• B. Notarized Bank Letter

AshBritt's Bank (Bank of America) is not permitted to provide a notarized letter. However, they said they will verify the letter provided below through a phone call to Ms. Kimberly Bryson, Sr. Vice President.

TAB 7. Minority/Women (M/WBE) Participation

AshBritt Inc. is not a certified minority business enterprise. AshBritt Inc. is partnering with SFM Landscape Services, a local disadvantaged business. Please see below for their Letter of Interest.

"Small" Business Goal Achievement

Hurricane Sandy Recovery Mission: AshBritt subcontracted over 65% of the subcontracted work to small business in the New Jersey Hurricane Sandy effort. The goal set by AshBritt in our proposal was 40%.

For our Hurricane Katrina recovery mission, AshBritt's contractually obligated goal for hiring small business concerns, which included HUB Zone SB, SDB, MBE, WOSB, HBCU/MI, and VOSB (including Service-Disabled VOSB) was $6\bar{0}$ percent. AshBritt surpassed that goal of 60 percent small business subcontractor utilization mark. Throughout our history, AshBritt has had great success in employing HUB/SBE/MBE/WBE and DBE businesses on our past disaster debris management contracts, often exceeding 50 to 60 percent local participation. We have always strived to meet and exceed any expectations for our past clients, and we have typically exceeded our goals.

Efforts to Meet M/WBE Procurement Goal

Given our location, experience, and extensive history providing these services in the state of Florida and the U.S., AshBritt feels as though we are uniquely positioned to respond to the Town. AshBritt has always exceeded our contractually obligated goal of local disadvantaged business including but not limited to: Small

Clean • Green • Secu May 15, 2017 John Noble AshBritt, Inc. 565 E. Hillsboro Blvd Deerfield Beach, FL 33441 Subject: RFP 2017-44 for Disaster Debris Management Services Dear Mr. Noble, This letter serves as notification of our interest to assist the Town of Miami Lakes, FL & AshBritt, Inc., by offering to make our services available in the event they are awarded the contract, and are activated for Disaster Debris Management Services during the contract's term. SFM Services, Inc. Christian Infante, President, incorporated on 1/8/87. · We qualify as the following business types (check all that apply) □ Small Business Veteran-Owned Small Business Small Disadvantaged Business Service-Disabled Veteran-Owned Small Woman-Owned Small Business Business X Minority Owned Business Federal ID # 59-2766887 Current/Active licenses held: Miami-Dade County Debris Removal & ISA Certified Arborist Number of Equipment/Personnel Available: (2) Self loader grapple trucks, (2) 20-CY Dump Trucks (4) Backhoes, (4) Skidsteer Loaders; Approximately (50) employees with chainsaws. Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE), Minority-Owned Business Enterprises (MBE), Women-Owned Business Enterprises (WBE), Veteran-Owned Business Enterprise (VBE) participation and will maintain this practice if we are once again awarded the debris removal contract for the Town.

In addition to identifying subcontractors through workshops and pre-planning session with the Town, AshBritt may utilize local news outlets or other streams of advertisement to identify subcontractors. We also utilize Town/County M/WBE directories on their websites to email all potential subcontractors. Tab (4), Section C., summarizes our success with these efforts.

TAB 8. Subcontractors

See the following list of potential subcontractors AshBritt may utilize if activated. The following list is not exhaustive; additional or substitute subcontractor resources would likely be used if the event warranted the participation. Fewer subcontractors would be used for a lesser event. Preference is offered to "qualified" local subcontractors, including local SDB/SDVB/M/W/DBE, who have the appropriate equipment and experience.

Note: Due to page restrictions, AshBritt only provided subcontractors identified in Broward and Miami-Dade County, FL.

CERTIFICATE OF AUTHORITY

(IF CORPORATION)

STATE OF Florida)

7.2.1

) SS:

COUNTY OF Broward)

I HEREBY CERTIFY that a meeting of the Board of Directors of the AshBritt, Inc.

a corporation existing under the laws of the State of <u>Florida</u>, held on <u>February</u>. <u>18</u>, 20<u>16</u>, the following resolution was duly passed and adopted:

"RESOLVED, that, as President of the Corporation, be and is hereby authorized to execute the Response dated, May 17, 20, 17, to the Town of Miami Lakes and this Corporation and that their execution thereof, attested by the Secretary of the Corporation, and with the Corporate Seal affixed, will be the official act and deed of this Corporation."

I further certify that said resolution is now in full force and effect.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the corporation this 17, day of May, 2017.

Secretary:

(SEAL)

FAILURE TO COMPLETE, SIGN, AND RETURN THIS FORM MAY DISQUALIFY YOUR RESPONSE

Certification – Trench Safety Act

The Bidder, by virtue of signing the Bid Form, affirms that the Bidder is aware of the Trench Safety Act, and will comply with all applicable trench safety standards. Such assurance shall be legally binding on all persons employed by the Bidder and Subcontractors.

The Bidder is also obligated to identify the anticipated method and cost of compliance with the applicable trench safety standards.

Bidder acknowledges that included in the various items of the proposal and in the total Bid price are costs for complying with the Florida Trench Safety Act. These items are a breakout of the respective items involving trenching and will not be paid separately. They are not to be confused with bid items in the schedule of prices, nor be considered additional Work.

The Bidder further identifies the costs and methods summarized below:

Description	Unit	Quantity	Unit Price	Extended Price	Method
Shoring	LF	TBD	Included	Included	Trench Box
. <u></u>			<u> </u>		
		·			
				<u></u>	

Total \$_0.00 (Included)

The Bidder/Proposer shall acknowledge this Bid and certifies to the above stated IV by signing and completing the spaces provided below.

Form TCA 6115

COMPLIANCE WITH PUBLIC RECORDS LAW

The Town of Miami Lakes shall comply with the Public Records Law as provided by Chapter 119, Florida Statutes, and all applicable amendments. Applicants must invoke the exemptions to disclosure provided by law in the response to the solicitation and must identify the data or other materials to be protected by separate envelope, and must state the reasons why such exclusion from public disclosure is necessary. The submission of a response authorizes release of your firm's credit data to the Town of Miami Lakes.

If the company submits information exempt from public disclosure, the company must identify with specificity which pages/paragraphs of their submittal/proposal package are exempt from the Public Records Act, identifying the specific exemption section that applies to each. The protected information must be submitted to the Town in a separate envelope marked "EXEMPT FROM PUBLIC RECORDS LAW". Failure to identify protected material via a separately marked envelopment will cause the Town to release this information in accordance with the Public Records Law despite any markings on individual pages of your submittal/proposal.

- (a) CONTRACTOR acknowledges TOWN'S obligations under Article 1, Section 24, Florida Constitution and Chapter 119, Florida Statues, to release public records to members of the public upon request. CONTRACTOR acknowledges that TOWN is required to comply with Article 1, Section 24, Florida Constitution and Chapter 119, Florida Statutes, in the handling of the materials created under this Agreement and that said statute controls over the terms of this Agreement.
- (b) CONTRACTOR specifically acknowledges its obligations to comply with Section 119.0701, Florida Statutes, with regard to public records, and shall:
 - 1. Keep and maintain public records that ordinarily and necessarily would be required by TOWN in order to perform the services required under this Agreement;
 - 2. Provide the public with access to public records on the same terms and conditions that TOWN would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;
 - 3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law; and
 - 4. Meet all requirements for retaining public records and transfer, at no cost to the TOWN, all public records in possession of CONTRACTOR upon termination of this Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to TOWN in a format that is compatible with the information technology system of TOWN.
- (c) Failure to comply with this Section shall be deemed a material breach of this Contract for which TOWN may terminate this Agreement immediately upon written notice to CONTRACTOR.

By submitting a response to this solicitation, the company agrees to defend the Town in the event we are forced to litigate the public records status of the company's documents.

County of	Broward	_ }

John Noble	being first duly sworn,	deposes and sa	ays tha	at he	e/she is the	e (Ow	ner,
Partner Officer Representative or A	agent) of AshBritt, Inc.			the	Proposer	that	has

submitted the attached Proposal and certifies the following;

Proposer certifies by submitting its Proposal that no elected official, committee member, or employee of the Town has a financial interest directly or indirectly in this Proposal or any compensation to be paid under or through the award of a contract, and that no Town employee, nor any elected or appointed official (including Town committee members) of the Town, nor any spouse, parent or child of such employee or elected or appointed official of the Town, may be a partner, officer, director or employee of Proposer, and further, that no such Town employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any contract award containing an exception to these restrictions must be expressly approved by the Town Council. Further, Proposer recognizes that with respect to this solicitation, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Town, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Town, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the Proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to the Town. The terms "Proposer" as used herein, includes any person or entity making a bid or proposal to the Town to provide goods or services.

Proposer further certifies that the price or prices quoted in the Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the Proposer or any other of its agents, representatives, owners, employees or parties in interest, including this affiant.

SWORN STATEMENT ON PUBLIC ENTITY CRIMES

SECTION 287.133(3)(a), FLORIDA STATUTES

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

4		
-	٠	

This sworn statement is submitted to the Town of Miami Lakes

by John Noble C.O.O.

[print individual's name and title]

for AshBritt, Inc.

[print name of entity submitting sworn statement]

whose business address is

565 E Hillsboro Blvd

Deerfield Beach, FL 33441

and (if applicable) its Federal Employer Identification Number (FEIN) is _______

(If the entity has no FEIN, include the Social Security Number of the individual

signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)9g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or the United States, including, but not limited to, any bid or contract for goods and services to be provided to any public entity or an agency or political subdivision of any other state or of the United States involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction or a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand than an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

a. A predecessor or successor of a person convicted of a public entity crime; or

b. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime.

The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an entity.

6. Based on information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. **[Indicate which statement applies.]**

Neither the entity submitting this sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, not any affiliate of the entity, has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

This entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. **[attach a copy of the final order]**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO

UNDERSTAND <u>THAT</u> I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

BEFORE ME, the undersigned authority, personally appeared $\underline{J_{OHM} \ NOBLE}$ to me well known and known by me to be the person described herein and who executed the foregoing Affidavit and acknowledged to and before me that $\underline{J_{OHN} \ NOBLE}$ executed said Affidavit for the purpose therein expressed.

WITNESS, my hand and official seal this 14 day of May, 2017.

Town of Miami Lakes RFP 2017-44 Disaster Debris Management Addendum #3

Due Date: 11:00 AM EST, May 22, 2017

This addendum is incorporated into and made a part of the Request for Proposal ("RFP"). The following may include clarifications, revisions, additions, deletions, or answers to questions received relative to the RFP, which take precedence over the RFP documents. <u>Underlined</u> word(s) indicate additions. Deletions are indicated by strikethrough.

Clarifications:

- This addendum is issued, in part, to provide Form 1 Company Declaration. This form can be found attached to this addendum, and as a separate attachment on either DemandStar or the Town's Procurement website under the Disaster Debris Management header (<u>http://miamilakes-fl.gov/index.php?option=com_content&view=article&id=289&Itemid=278</u>).
- The Bid Form is hereby revoked and replaced with Bid Form Revision 1. This form can be found as a separate attachment to the solicitation on either DemandStar or the Town's Procurement website under the Disaster Debris Management header (http://miamilakes-fl.gov/index.php?option=com_content&view=article&id=289&Itemid=278).

Questions & Answers:

- On the Price Proposal Form, Line Item A4, please confirm that this line item is for Haul-out of reduced C&D from the DMS to the Final Disposal Site.
 Answer: Yes
- On the Price Proposal Form, there are no line items for Collection of Vegetative Debris from ROW and haul to DMS.
 Answer: Items A1 & A3 address this issue. These items include removal from the ROW, transportation to the DMS, and then to the final disposal site.
- 3. On the Price Proposal Form, there are no line items for Collection of C&D Debris from ROW and haul to DMS.

Answer: Please refer to Clarification 2 above. A line item for C&D Debris Removal has been added to Bid Form Revision 1, also known as the Price Proposal Form.

4. On the Price Proposal Form, there are no line items for Reduction of Vegetative Debris via Grinding.

Answer: This price should be included in line item A4 on Bid Form Revision 1.

5. On the Price Proposal Form, there are no line items for Reduction of Vegetative Debris via burning (ACI and Open Burn).

Answer: As stated in the RFP and contract, burning is not permitted.

- On the Price Proposal Form, Line Item A20 (A21 in Bid Form Revision 1), please confirm this line item is for removal of all hanging limbs per tree, essentially a Price per Tree option.
 Answer: Yes
- On the Price Proposal Form, Line Item A6 (A7 in Bid Form Revision 1), would the Town consider changing the unit of measure for E-Waste from Cubic Yard to Price per Unit (\$/Unit)?
 Answer: No, this would be more expensive and complicated.
- 8. Who will provide the locations of the TDSR or Debris Management sites (DMS)? **Answer:** The Town. Please refer to Exhibits 2 & 3 of the RFP.
- 9. Please explain specifically how the pricing of one proposal will be evaluated against the pricing from another proposal, including the answer to these questions:
 - 11a. Will each pricing proposal be analyzed and refined to become one total number which can then be compared to the other proposals, and if so, what is the formula that will be used to derive that total number?

Answer: The evaluation process is explained in Section 6.1A (Page 31) and the Evaluation Criteria can be found in Section 6.1B (Page 33) of the RFP.

- 11b. Will all pricing line items be evaluated equally or will some line items receive more importance in the evaluation?
 Answer: The Evaluation Criteria weighing can be found in Section 6.1B (Page 33) of the RFP.
- 11c. Will extended totals (unit price multiplied by estimated quantity) be used to evaluate pricing, and if so, what estimated quantities and what line items will be used to derive the extended totals that will be evaluated?

Answer: No estimated quantities are provided in the bid form and as such extended totals will not be used for evaluation pricing. Áll line items are considered in evaluating and scoring pricing.

10. On page 3, the RFP states that "Proposals must be submitted in the form of one (1) original and seven (7) copies and one CD-ROM or flash drive for the Technical Proposal and one CD-ROM or the Price Proposal." Does the Town require an original hard copy of the Price Proposal or will just an electronic version suffice?

Answer: The price form is a component of the proposal and as such one original hard copy and 7 hard copies must be provided.

- 11. Section 5.1, on page 27 states "Page limitations have been established for some of the Town Forms, as well as other documents." Are certain forms included in the 25-page limit? **Answer:** The 25-page limit applies to all matter except the following:
 - Resumes (excluded from total page count, but each resume must be one page)
 - Licenses
 - Certifications/Registrations
 - Certificate of Authority
 - Affidavits
 - Price Proposal
 - Financial Documents
 - Letters from Bonding & Insurance Companies
- 12. On page 27, the RFP states that double sided printing is permitted. Is it mandatory or can we print single sided?

Answer: No, but each side that is printed is considered a page toward the 25-page limit.

13. On page 27, the RFP states that there is a 25-page limit. Do the following normal submittals count towards the page limit: Letter of Intent, Signing Authority, Licenses, Financial Letters and sample insurance certificates?

Answer: Please refer to the Answer for Question 13 above. Also, please note that sample insurance certificates do not meet the requirement for providing a letter from Proposer's insurance company demonstrating that the Proposer can meet the insurance requirements.

- 14. Will the Town consider lengthening the page limit of Tab 3 Qualifications and Experience beyond 5 pages so that we may sufficiently provide the information requested? Answer: No. Page limitations have been established to encourage Proposers to provide clear and concise responses that facilitate review by the Evaluation Committee.
- 15. Will the Town consider lengthening the 25-page limit so that we may sufficiently provide the information requested? **Answer:** Please refer to the Answer for Question 16 above.
- 16. On page 27, the RFP states that in Tab 1 we are to complete and fill out Exhibit 1 Company Declaration. Exhibit 1 is the Federal Provisions. I do not see anything titled Company Declaration. Where can I obtain this form? **Answer:** Please refer to Clarification 1 above. Also, please see the attached Form 1 – Company Declaration.
- 17. We are a Limited Liability Company and have a signing authority. Can we submit that in lieu of the Certificate of Authority? Answer: Yes, provided that it clearly documents the individual's authority to execute the proposal on behalf of the Proposer.
- 18. Is a bid bond required with the Proposal Submittal? Answer: All requirements are stated in the RFP and as such no bid bond is required.

Price Proposal Form Disaster Debris Management Services RFP 2017-44

Proposers must provide prices for all line items. Failure to provide prices will result in the Proposal being deemed non-responsive. If an item is being offered at no cost a "0" must be used as the line item price. There are 2 tabs to this, spreadsheet, with the 2nd tab providing pricing notes. Bidders must submit the Price Form in electronic format(S Excel). Do not convert the form to .pdf or any other format as it may result in the Proposal being rejected as non-responsive. Proposers may include a hard copy with its Proposal in a separate sealed envolope that must be marked as the Price Form.
