

## Town of Miami Lakes Memorandum

---

**To:** Honorable Mayor and Councilmembers

**From:** Councilman Nelson Rodriguez

**Subject:** ALS Transport Unit for Station 64

**Date:** January 5, 2016

---

### **Recommendation:**

I am requesting that the Town Staff prepare a Resolution requesting that Miami Dade County Fire Rescue place a ALS Transport Unit (Rescue truck) at Station 64. This resolution will serve as the trigger for the County to begin their budgeting and staffing process.

With the development of the Dunnwoody property, the Town will be expanding by 482 homes. At this time the Town currently has only one rescue unit which is on the northern most point of 67th Ave.

As traffic travel time increases throughout Miami Lakes and its surrounding areas, I believe it is time to add Rescue 64 to the Town and Northwest Dade.

Fiscal Impact: Small
