

## **Town of Miami Lakes Memorandum**

---

**To:**           **Honorable Mayor and Councilmembers**

**From:**       **Councilman Manny Cid**

**Subject:**     **Infrastructure Week Across America - May 16 - 23, 2016**

**Date:**       **April 5, 2016**

---

### **Recommendation:**

Infrastructure Week 2016: "Our theme in 2016 - "Infrastructure Matters" - tells the story of what infrastructure means to Americans. It matters, in big ways and in small, to our country, our economy, our quality of life, our safety, and our communities. Roads, bridges, rails, ports, airports, pipes, the power grid, broadband...infrastructure matters to the goods we ship and the companies that make and sell them; it matters to our daily commutes and our summer vacations, to drinking water from our faucets, to the lights in our homes, and ultimately to every aspect of our daily lives."

I would like to pass a resolution officially recognizing Infrastructure Week, specifically outlining how infrastructure matters in our community.

Also, during Infrastructure Week, I would like to coordinate an infrastructure field trip to the MDC Traffic Signals and Signs Division (TS&S) & Miami-Dade Water and Sewer Department treatment plant. The trip will help us highlight how important the TS&S and the treatment plants are to Miami-Dade County and particularly Miami Lakes.
