

Town of Miami Lakes Memorandum

To: Honorable Mayor & Councilmembers

From: Edward Pidermann, Town Manager

Subject: Stormwater Rate Study Workshop

Date: May 12, 2020

On September 10, 2019, the Town Council passed Resolution No. 2019-1631 approving a work order for Wood Environment & Infrastructure Solutions, Inc. (“Wood”) for the Stormwater Rate Study, in an amount not to exceed \$40,255.80. The purpose of the study is to determine an appropriate utility fee that would advance the goals of the stormwater program and accelerate the implementation of stormwater capital projects.

The stormwater rate study process involves public participation along with elected officials and key stakeholders which is important in making changes to local government programs and funding. A workshop with elected officials and the public is important to share findings and to gain advice and guidance on how changes may impact the Town.
